MAKE
IT
YOURS!

Within the four years **you** are given at St. Clair High School, **you make your** own countless number of memories. **You** possess new, unique perspectives, different experiences, and vivacious goals every year. Our theme: ***Make It Yours***, captures all of **your** memories made in two-thousand and sixteen. In order to **make** this book **yours**, we added an icon called an *Aurasma* (⚜) onto pages of the book, so **you** could replay all of the great memories that molded **your** year. We all have our **own** stories to tell and legacies to fulfill, so ***Make It Yours***!

*In order to access the videos, download the *Aurasma* app and sign up for an account.

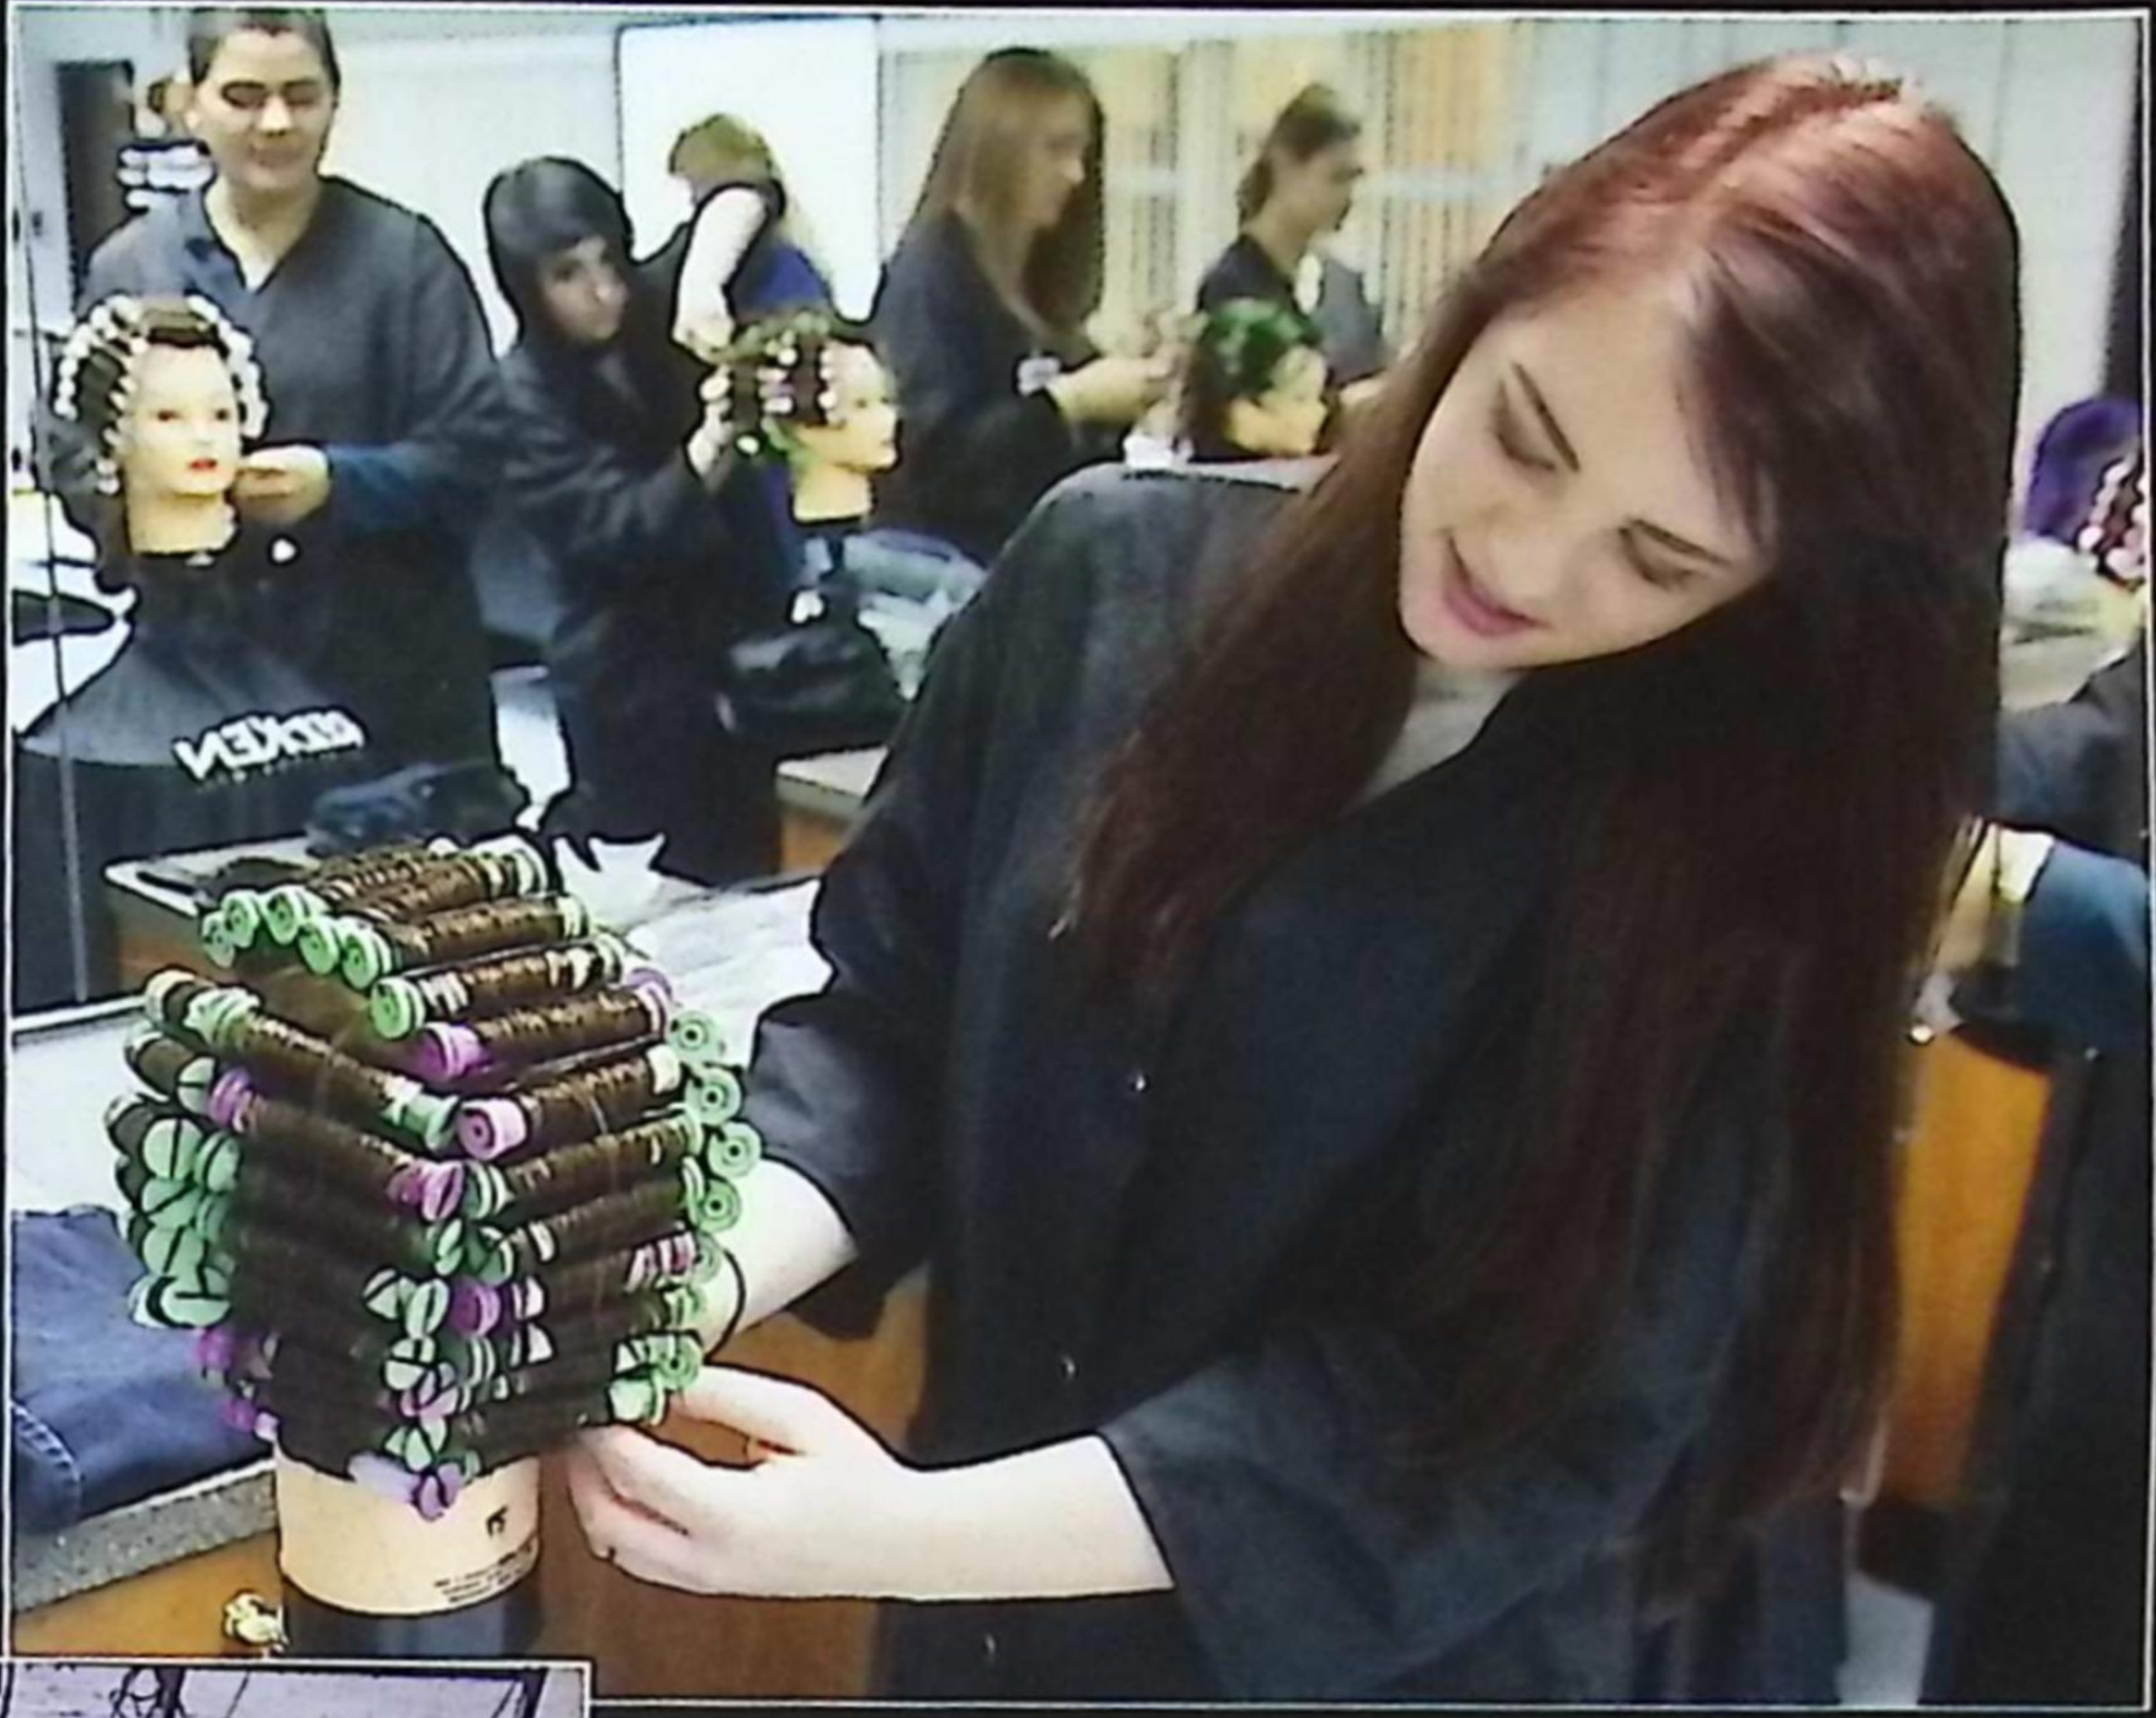
ALABAMA

There goes the 90s

Maddy Primeau

"I saw TEC as a great opportunity to get started with a career so I could prepare myself for the real world earlier than most kids. I chose cosmetology because I think it's amazing how many different appearances people can have, depending on their mood. I absolutely love TEC, and it is the best choice I've ever made. I see it as a form of art and I want to do this for the rest of my life because I love working with people. Also, I love helping people achieve a look that they want because I know it makes them happy."



Allison Dwyer

"What songs remind you of summer?"
"Some songs that remind me of summer are *Cool for the Summer*, *Shake It Off*, and *How Deep Is Your Love*. *Cool for the Summer* reminds me of a summer party with my friends. *Shake It Off* reminds me of summer because I can shake off the stress from school, and *How Deep Is Your Love* reminds me of summer because it has a summer vibe to it that makes me want to relax in the summer sun."
"What was your favorite memory from summer?"
"Going up north with my family for the Fourth of July. My cabin is right on Houghton Lake, and we have a boat, so every summer we go up there. My entire family comes to our cabin and we all catch fish for the annual fish fry. It's great because we know that we caught the fish ourselves. Then when it gets dark my uncle sets off fireworks in front of the lake and it is the prettiest sight. We also bring our dog, Molly, with us and she keeps me company while I chill by the lake."

Abigail Eitniear

"I was on Mackinac Island with my family and I really wanted to ride a horse because I use to take lessons. I hadn't ridden a horse in a long time, but I loved it. It was funny because my horse kept stopping to eat leaves so I had to pull her away, and make her run to catch up. Also, my horse kept hitting other horses with her nose and then when they turned around, she'd stop and look away like it wasn't her who did it."

Emma Washburn

"Over the summer I ran my first SwampFoot 4 Mile with my good friend Holly Wingate."

"What motivated you to run SwampFoot?"

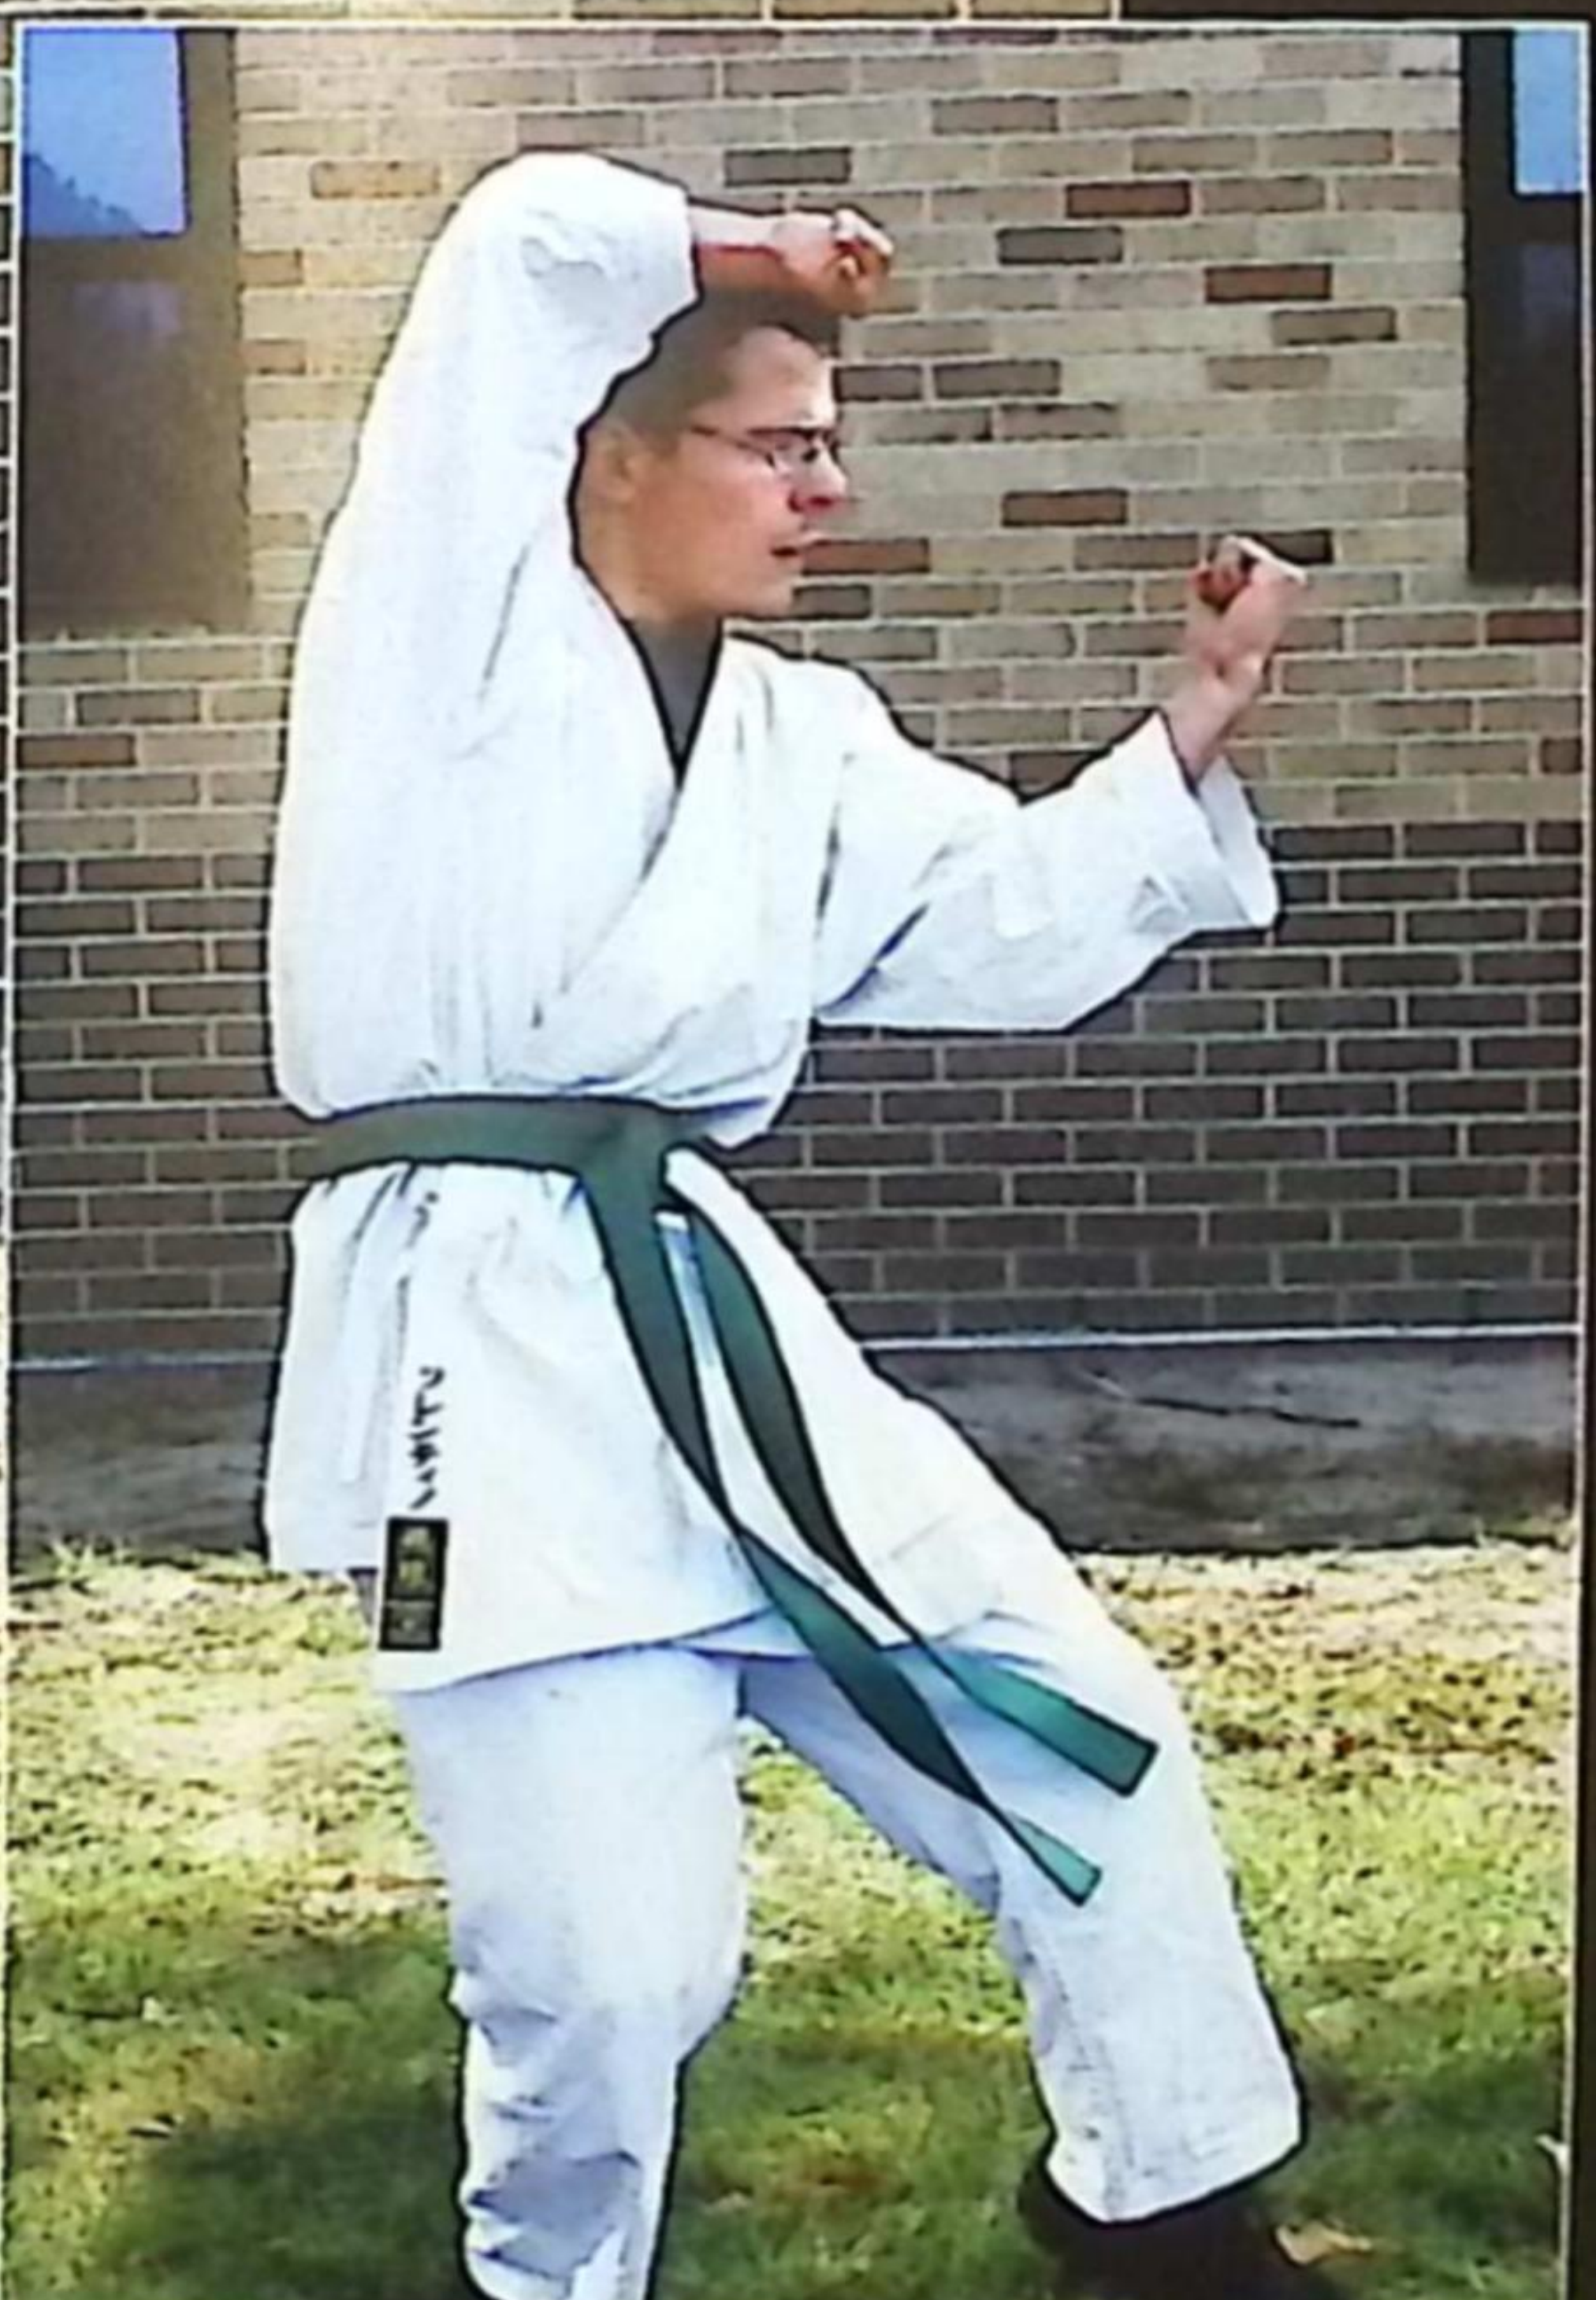
"I have always heard about SwampFoot and it's right in my line of interest. It looked like so much fun and I knew I would have a blast doing it; having my friend right beside me made it even better."

"Do you think you had better endurance having played soccer your whole life?"

"Well, soccer definitely helped me get through it, and I finished fast and strong because I had already been in good shape beforehand. Soccer is [illegible] everything and sometimes people underestimate how difficult [illegible] and how much skill it involves. I just try to enjoy it no matter what others say to discourage my passion."

"What was your favorite part of the race?"

"Holly and I were walking through the water part of the course when a man behind us lets out a sigh of relief as if he had just peed. We were disgusted, and we nearly passed out laughing as we booked it through the water, trying to get away from him and the muddy water."



Alexander Beals

"When did you first start taking karate classes?"

"I first started taking karate classes when I was nine years old. First, I started by learning the technique and different moves. My instructor taught me the eight different blocks and the seven kicks; there are also seven types of belts, and tests to take too."

"What was the first test you took?"

"The first test I took when I received my yellow belt was called Kihon Kata 1. I currently have a green belt which is the 4th level. I enjoy sparring and competitions the most because I get to show off my cool moves and test my skills. "

SECONDS
OF SUMMER

Mckenna Owens

"When I was born, I had this disease called Osteogenesis Imperfecta, which basically means I break my bones really easy. Over 14 years, I have broken about 34 bones and have had 18 surgeries. The time when I broke my lower shin in half was probably the worst one I can remember. Normally, I wear these ankle braces on my legs for stability but I didn't wear them that day and I regret it.

I was in Florida with my family, and my dad and I went into this party store for drinks and I had to carry the basket. We started filling the basket, and I guess it was too much weight because I took a step and I fell down. I didn't understand at first what happened but I looked down at my leg and saw it. My leg was broken in half and my shin acted as if it were my knee. I couldn't get up so the store owners had to call 911. I actually broke my leg in half one time before, but I was around six and I can't really remember that time. Once we got to the hospital and got X-rays, we found out that I would need surgery because when I broke it, it actually bent the rod that was holding my leg together. I went into surgery and it only took about an hour, which was fast compared to the others. After surgery it was hard to start walking on it again, but I was able to after about three months."

Adriana Kuffa

"What were you most excited for this summer?"

"The months I spent waiting for my trip to the Bahamas were full of nothing but excitement. I've never even been out of the United States before, so this trip was going to be so adventurous and thrilling. When I first got on the cruise ship I thought I was going to be seasick, but that feeling went away as soon as I saw the breathtaking view of the islands. I have never seen anything like it. I toured parts of the Caribbean, hopping from island to island, and spending as much time as I could on the gorgeous, sparkling beaches; it was so beautiful there! After, we went to an island in Mexico, called Cozumel."

"What was the most memorable part of your vacation?"

"My favorite part was while I was in Mexico. While I was there I got to swim with dolphins...I wish I was there right now!"

I had heard stories from my friends about their cats running away, so I immediately expected the worst. However, my cat surprisingly showed up one day when I had given up looking for her. It is definitely a day I will never forget. I was sitting on the back porch watching the clouds roll in, and after about five minutes it started raining. Before going inside, I took one last look at the yard. As soon as I got inside, I heard cries coming through the screen door. I quickly turned around to find my cat meowing on the porch, and drenched from the rain. After flinging the door open, I picked her up in a towel and brought her in my living room. She sat next to me on the couch for hours. It was honestly the best day of my life."

"My favorite GSA memory... it's hard to pick just one throughout my years of being in GSA. It has truly been a very amazing experience for me. I think one of my favorite experiences was during Ally Week when we were sitting at the table at lunch and giving out name tags that said, "Hello my name is..." and we would have the people put Ally on it. We let a couple of the teachers have them, and our principal too. Another one of my favorite memories would be when we were sitting at the table during Thanksgiving. Every year GSA does a Thanksgiving board where we cut out hands and people put what they are thankful for on every finger and then they write their name in the center. We were sitting at the table at lunch and right next to us were Army veterans. I explained to them our group and what we were doing and asked them if they would like to make a hand; they agreed and wrote what they were thankful for. That also made me very happy because we had a HUGE student response to that activity.
My hopes and wishes for GSA this year would be to become more well known in the school and change the way people think about us because most people think of us just as the gay group, and that is not at all what we are. We stand for so much more. We are an anti-bullying group, an equality group, and we are active members in the community. This year I hope to bring my group further into the community by giving donations to K.I.D.S and helping clean up the city. I hope that this will be a good year for GSA and I leave with tears in my eyes. Also, I hope that we bring the bond we already have closer together while also bringing new members into our group!"

-Audra Falecki ('16)

1. "Tell me some of the important life lessons you have learned from being involved in GSA."
"I learned that you can't judge a book by its cover. So many people have different things going on inside that we have no idea about."

-Marlena Nedeljkovic ('16)

2. "Next year, the other Victoria and I want to be able to lead the club. I have been in the program since freshman year, and I intend on keeping it going."

-Victoria Irwin ('17)

3. "Joining GSA has helped me realize that there are always people who support you and they also understand what you're going through."

-Sarah Green ('19)

4. "GSA provides a safe place for everyone. No one is ever judged, and everyone is free to be themselves."

-Leo Minor ('19)

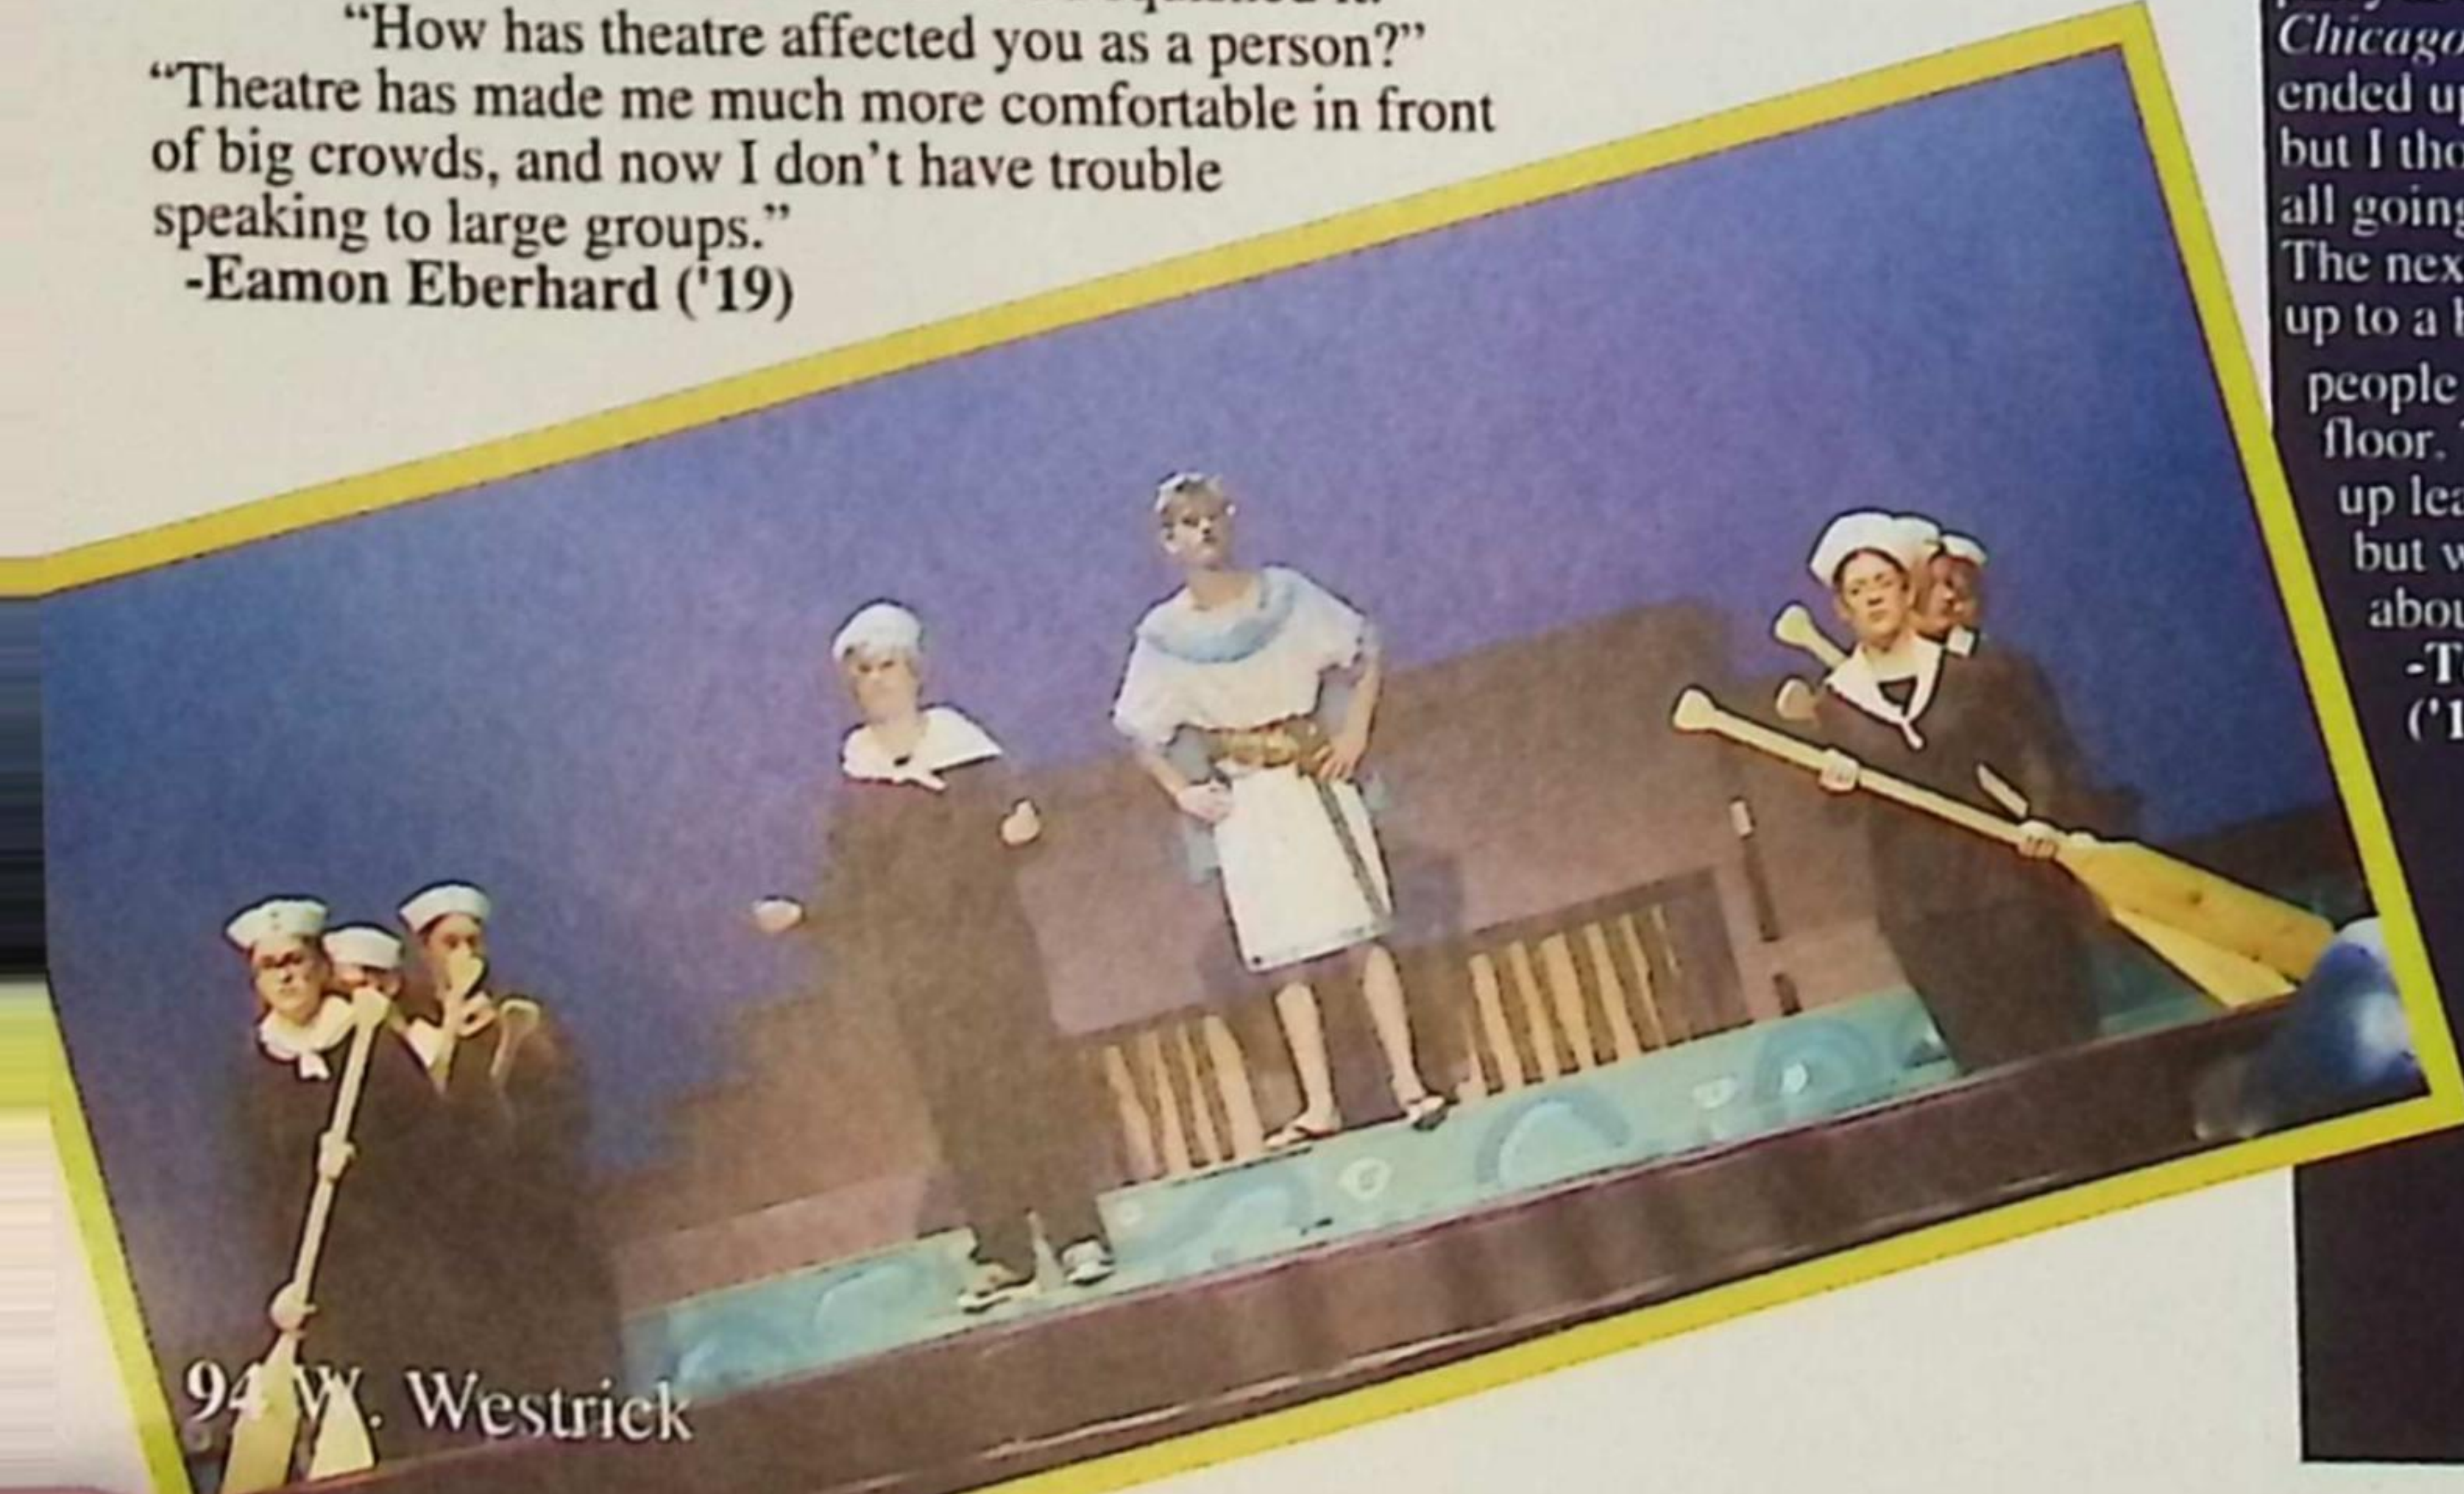
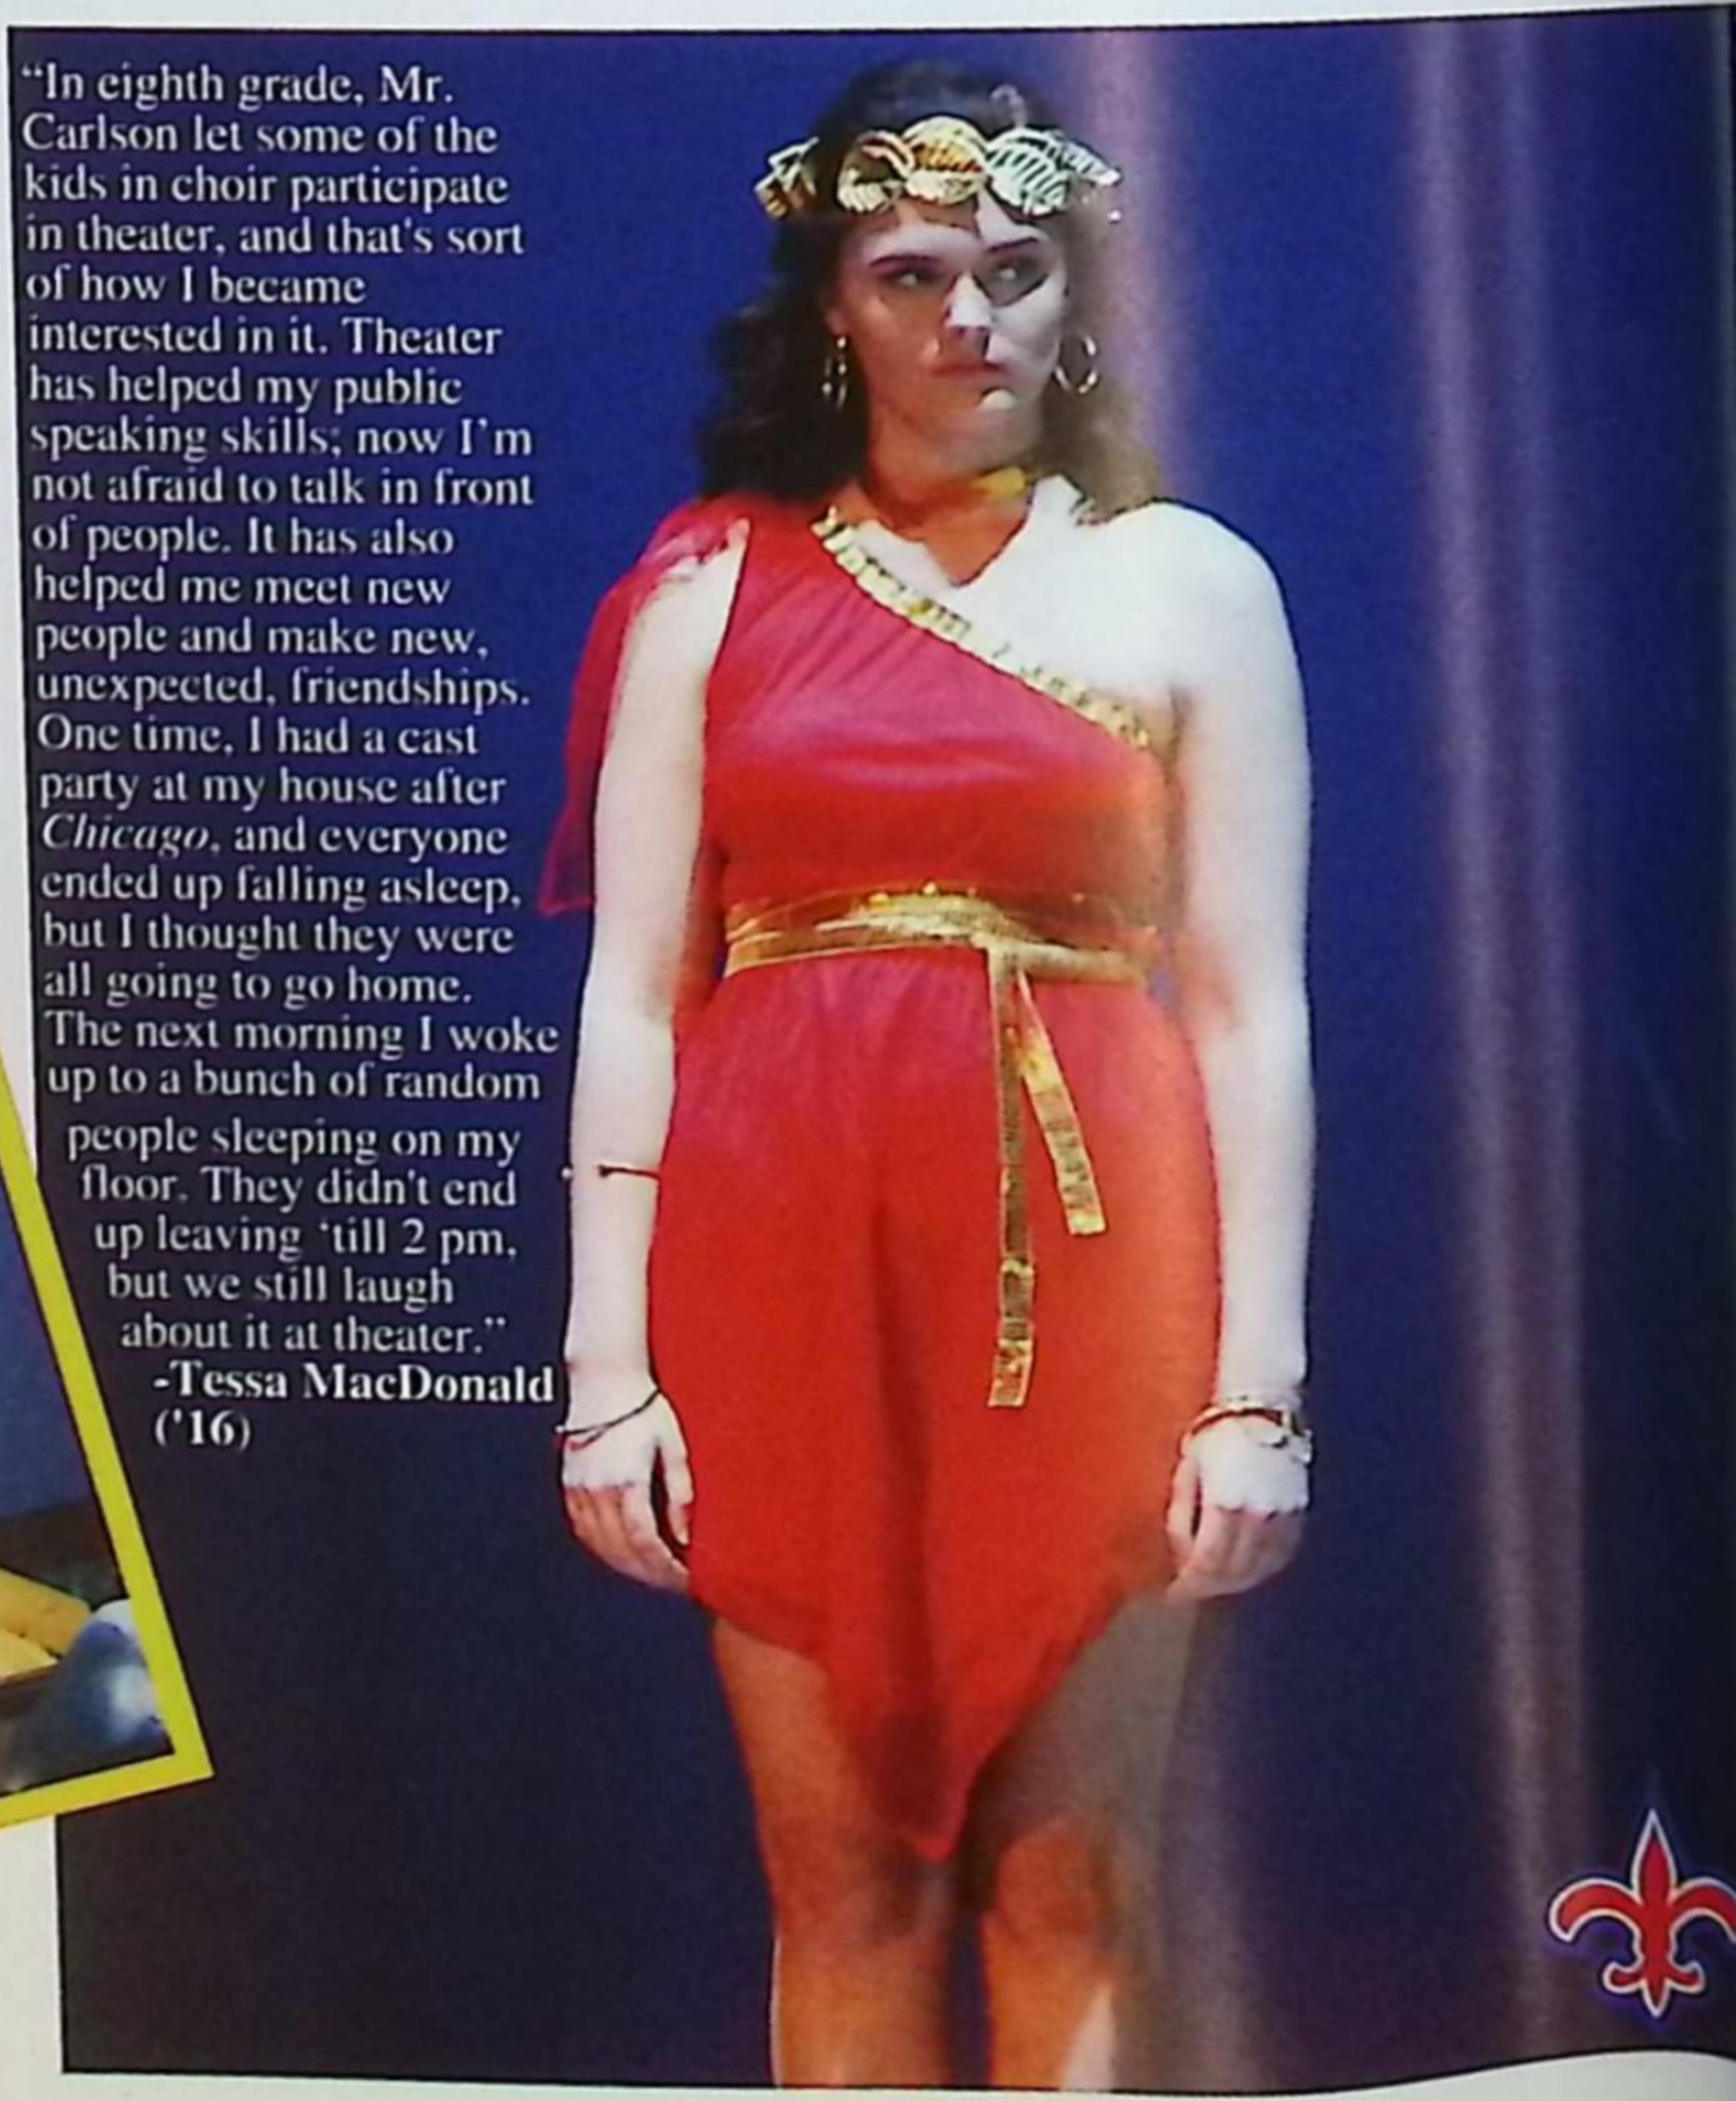
Metamorphoses

below: "From an early age my sister started doing theatre, and she is a really awesome person, that is what inspired me to persue theatre."

"What was the most embarrassing thing you have ever done on stage?"
"In eighth grade I was performing in *Brighton Beach Memoirs* and we were all sitting down at the dinner table for the scene. Then, this fly landed in my mashed potatoes, so I took a fork and I squished it."

"How has theatre affected you as a person?"
"Theatre has made me much more comfortable in front of big crowds, and now I don't have trouble speaking to large groups."
-Eamon Eberhard ('19)





"In eighth grade, Mr. Carlson let some of the kids in choir participate in theater, and that's sort of how I became interested in it. Theater has helped my public speaking skills; now I'm not afraid to talk in front of people. It has also helped me meet new people and make new, unexpected, friendships. One time, I had a cast party at my house after *Chicago*, and everyone ended up falling asleep, but I thought they were all going to go home. The next morning I woke up to a bunch of random people sleeping on my floor. They didn't end up leaving 'till 2 pm, but we still laugh about it at theater."
-Tessa MacDonald ('16)

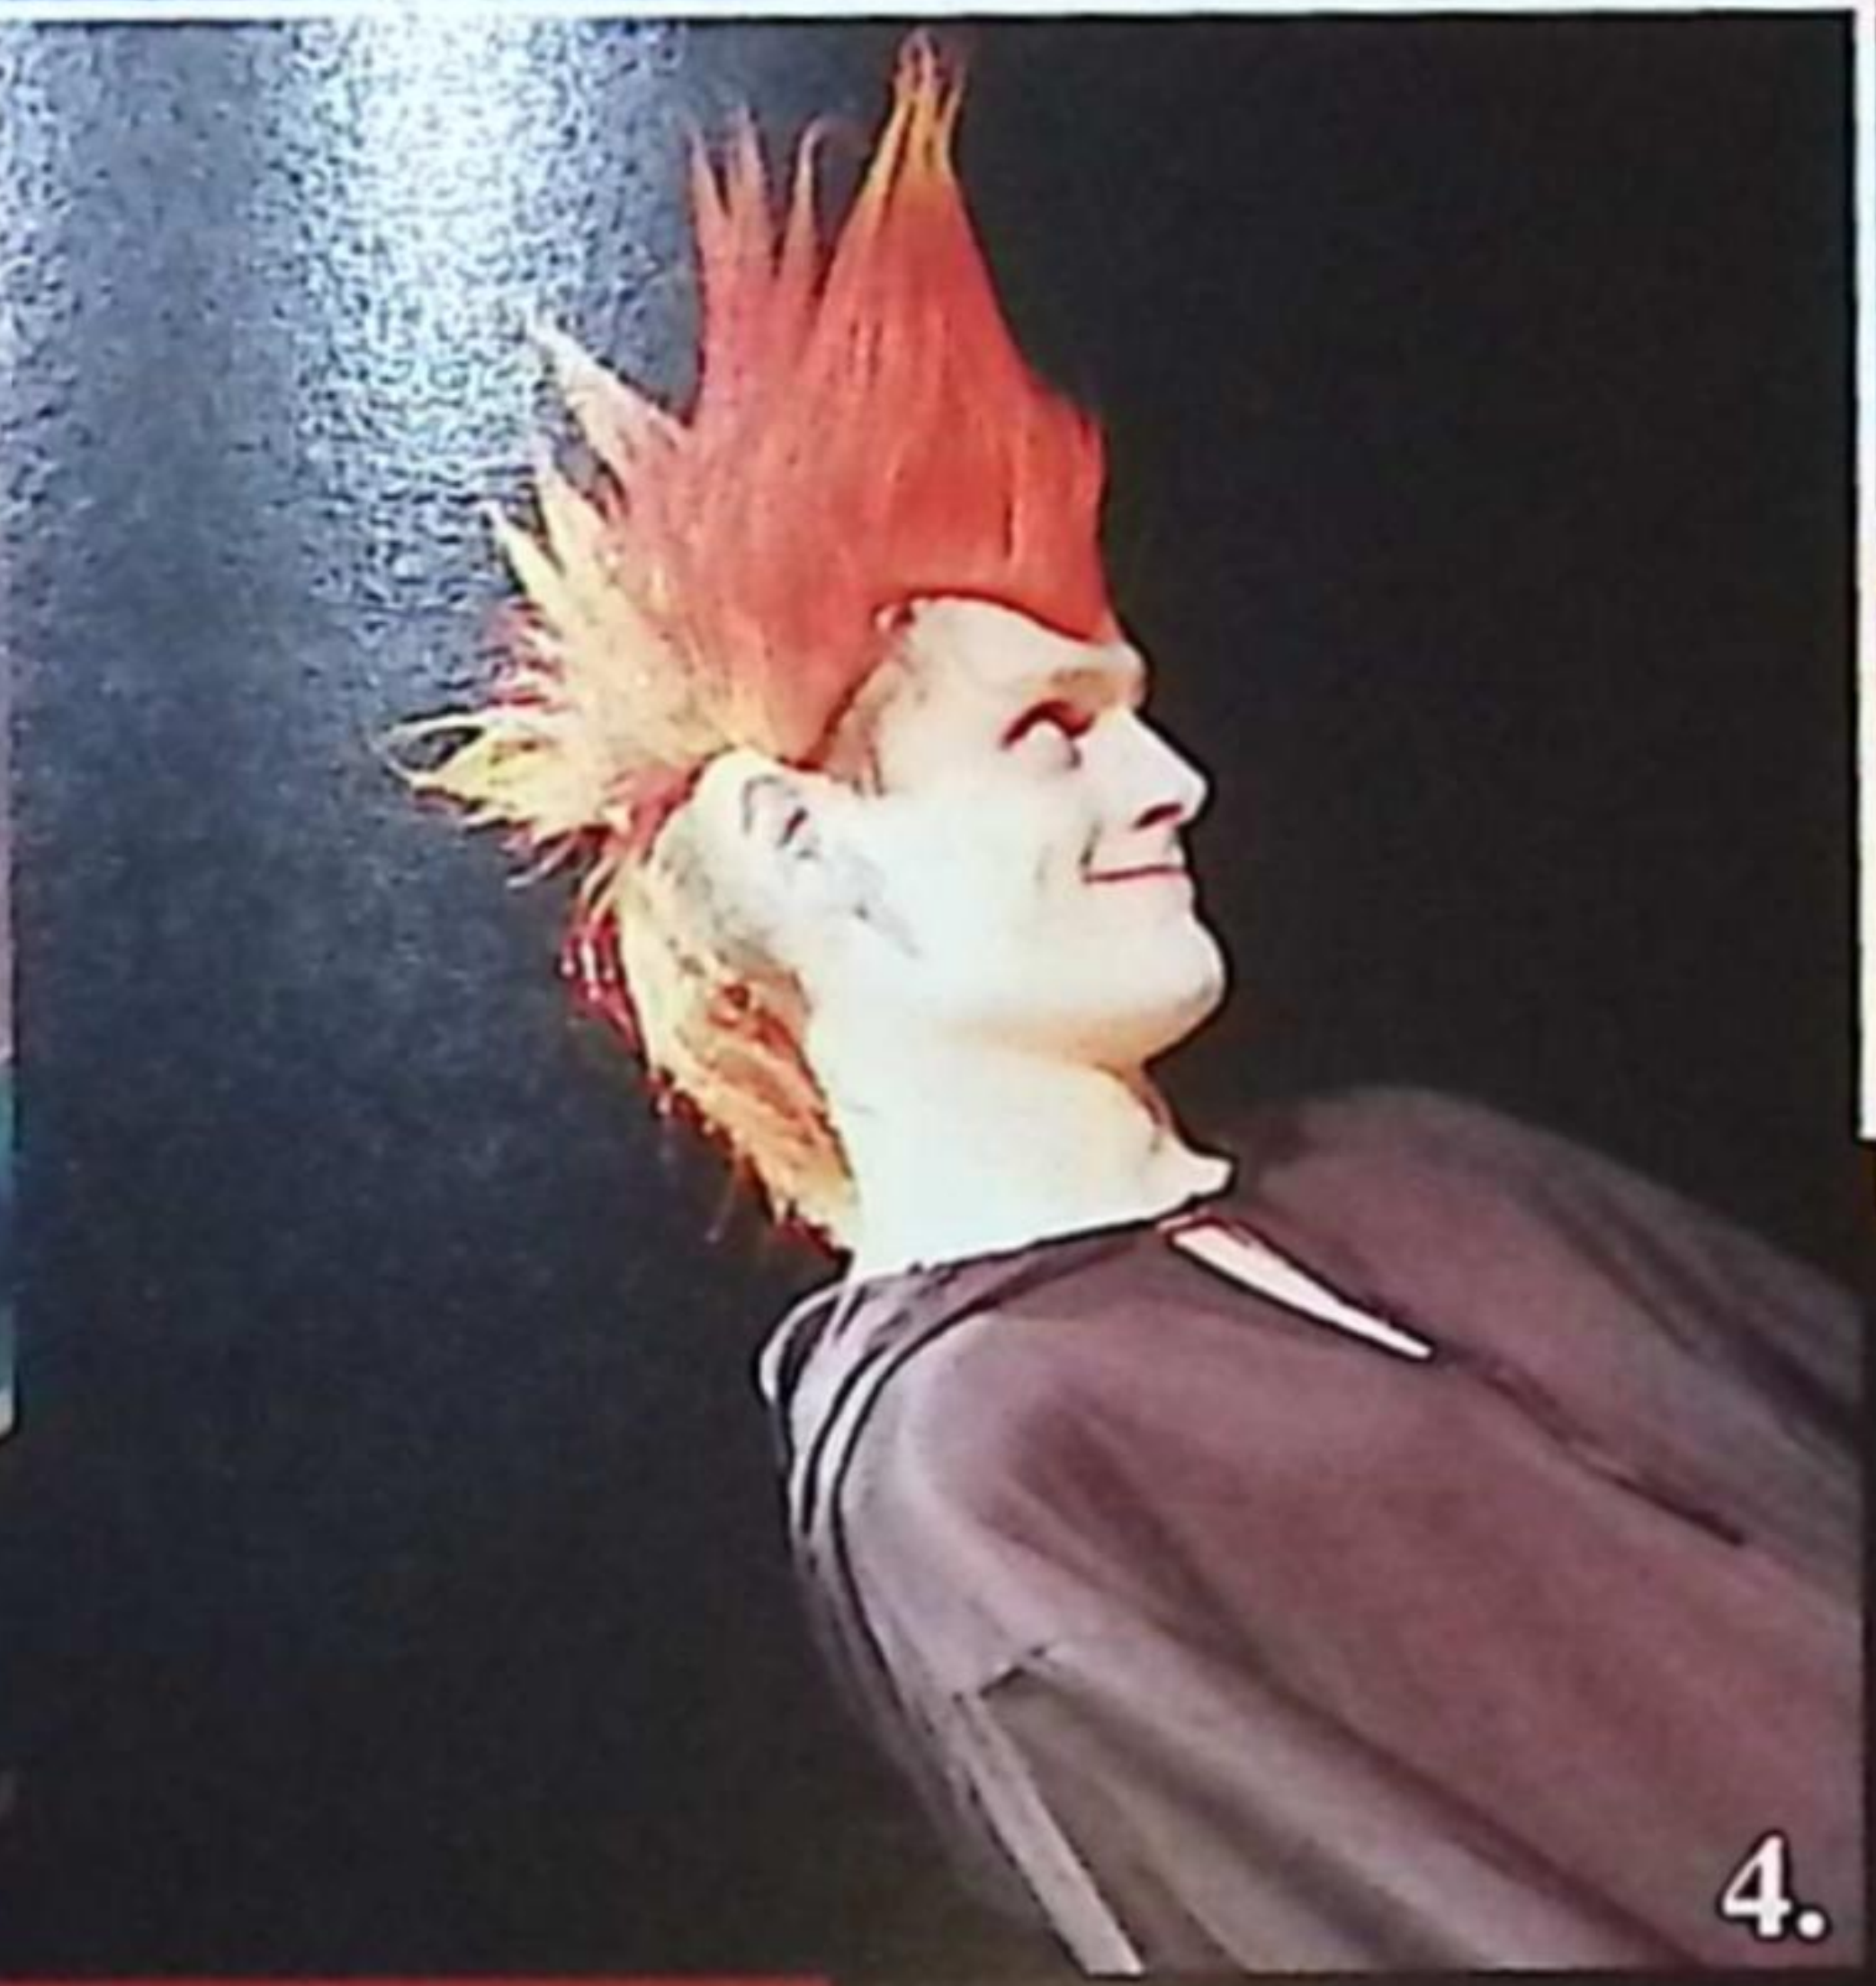
3.



4.

1. "I have been doing theatre since I was in sixth grade and I just love it. I didn't really have a lot of friends, and I was kind of weird. That was what made me say, 'Hey I'm going to try this.' Then I ended up doing it and I really liked it."

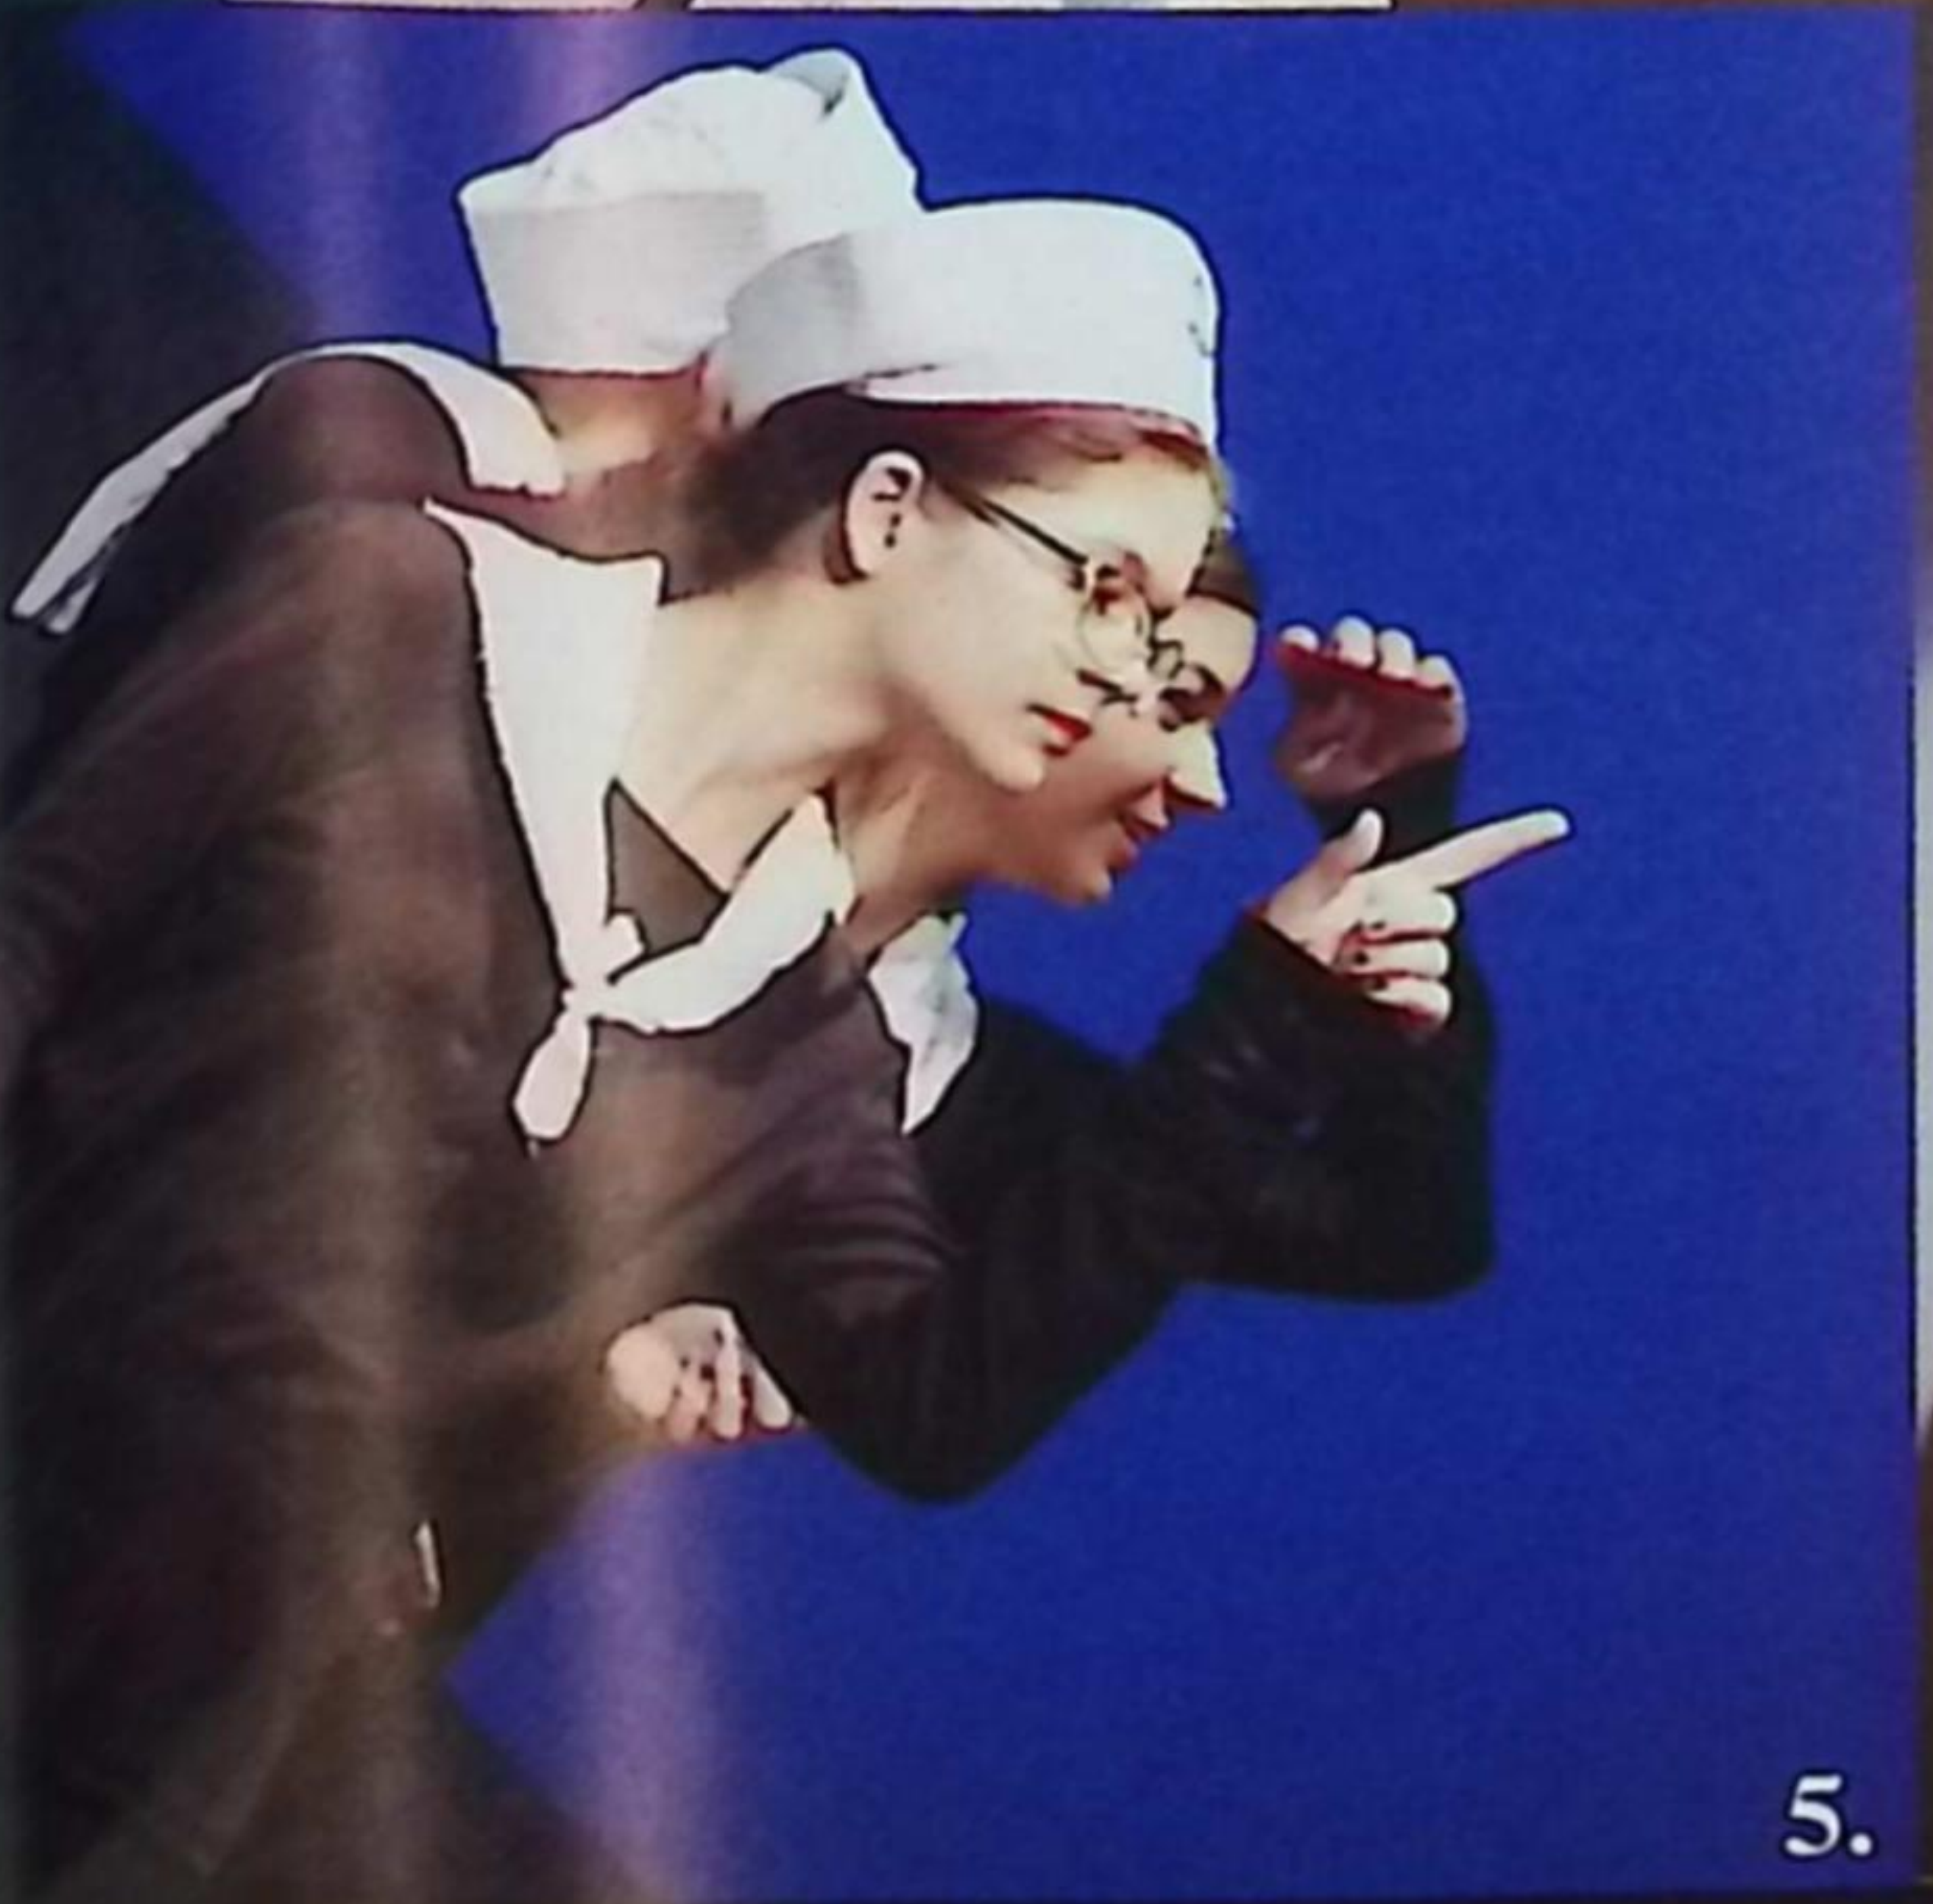
"What was the funniest thing that has happened to you throughout the years you've been in theater?"
"One time, **Noah Frey ('16)** was wall swimming and he smashed his face on a brick wall; this was the day before opening night, so he showed up to the play and his face was all funny. It was just hilarious!"
-Kelly Kaczmarek ('16)

Emily Skalka ('16)

2. "Have you ever done anything embarrassing on stage?"
Sarcastically Noah remarks, "No, never, but the night before our first performance I smashed my face into a wall while I was wall surfing. The whole theatre group was watching so that was pretty funny."
-Noah Frey ('16)

3. "How did you become interested in theatre?"
"My sister did it in high school and it always seemed fun when she would talk about it at home."
"Do you have any funny memories from theatre?"
"Last year we made Mr. Eberhard a book of his quotes and some of them were just ridiculously funny."
"How have you benefited from joining theatre?"
"Theater has made me a lot more open about myself and a lot less shy."
-Katherine Freeman ('16)

4. "I joined theatre to get out of my shell, and I had prior acting experience so I thought I would give it a shot. The best moments we had were just hanging out and making jokes in the boys' dressing room. Theatre has helped me develop as a person, and it helped me with time management. I had to learn how to balance homework with an after school activity which definitely taught me some new skills."
-Devon Peters ('18)



5.

6.

5. "What made you want to join theatre?"
"Having the chance to experience my talent for reading and having fun while doing it, made me want to join theatre."
"What motivated you to become a better actor?"
"When Eb gets mad it motivates us to do better and the overall final product is better too."
"My most memorable moment so far was our first performance, *Metamorphoses*. I was able to participate in a lot of traditions that have been passed down through the generations of theater. It's cool to know that we are a part of something that has been going on for so long. My advice for anyone joining theater is to think before you go into it because it takes a lot of time. Overall, theatre has helped me make a ton of friends and has made me a well rounded student."
-Taylor Thorp ('19)

6. "I started theatre when I was in third grade because I really like to sing. My family went to a lot of live shows when I was younger, and I really wanted to be a part of drama. Theatre has helped me understand people better. I get to study and analyze how they act with each other when they have to be different characters. My favorite memory is our tradition called circle; it's a really unifying moment for the whole cast."

2. "Next year I am looking forward to some more danceable music at homecoming, and I hope that they take out the slow songs. There isn't anything I want to change about homecoming week because I like it as i is. Next year I am just going to try to have as much fun as I can for my senior year!"

-Carter Simons ('16)

3. "What made the assembly game so hard was when he went bobbing for the apple; the water spilled all over the floor; the whole area was soaked. We were slipping everywhere! It was also difficult to work with someone else and have to stay in sync with them while walking."

1. "Scoring the touchdown was the greatest feeling. As soon as I had the ball, and a straight shot to the end zone, I knew I was going to score. Crossing the line and hearing the crowd and the coaches yelling for me was the best moment. Running the extra point was a great feeling as well. Let's Go Saints

"I began playing on varsity my sophomore year. I was nervous at first because all of the guys were older than me and I didn't really know them. It was okay though because they accepted me, and they were all a really great group of guys. It felt normal being on a team with older kids after a few games. My junior and senior year, when I played with people my age, it didn't feel all that different; it felt normal playing with kids my age because I grew up playing with them. Although it was a different team with different players each year, there was the same brotherhood year after year. Our brotherhood means truly loving the person next to you and sacrificing your body for the good of the team. I'm happy I grew close with a lot of people I wouldn't have gotten the chance to otherwise."

"What was the best moment from this cheer season?"

"One time our coaches tried to scare the team at practice. They said they heard noises in the locker room and made us follow them in there to see what it was. We practice at the old middle school so it can be creepy at times. When we went in there, there was this loud banging and we all sprinted out into the gym, terrified. **Sara Rann ('17)** tripped and fell. We all trampled over her without realizing she had even fallen. Once we got to the gym we looked around to find Sara, and she was lying on the ground dying laughing. Girls Golf

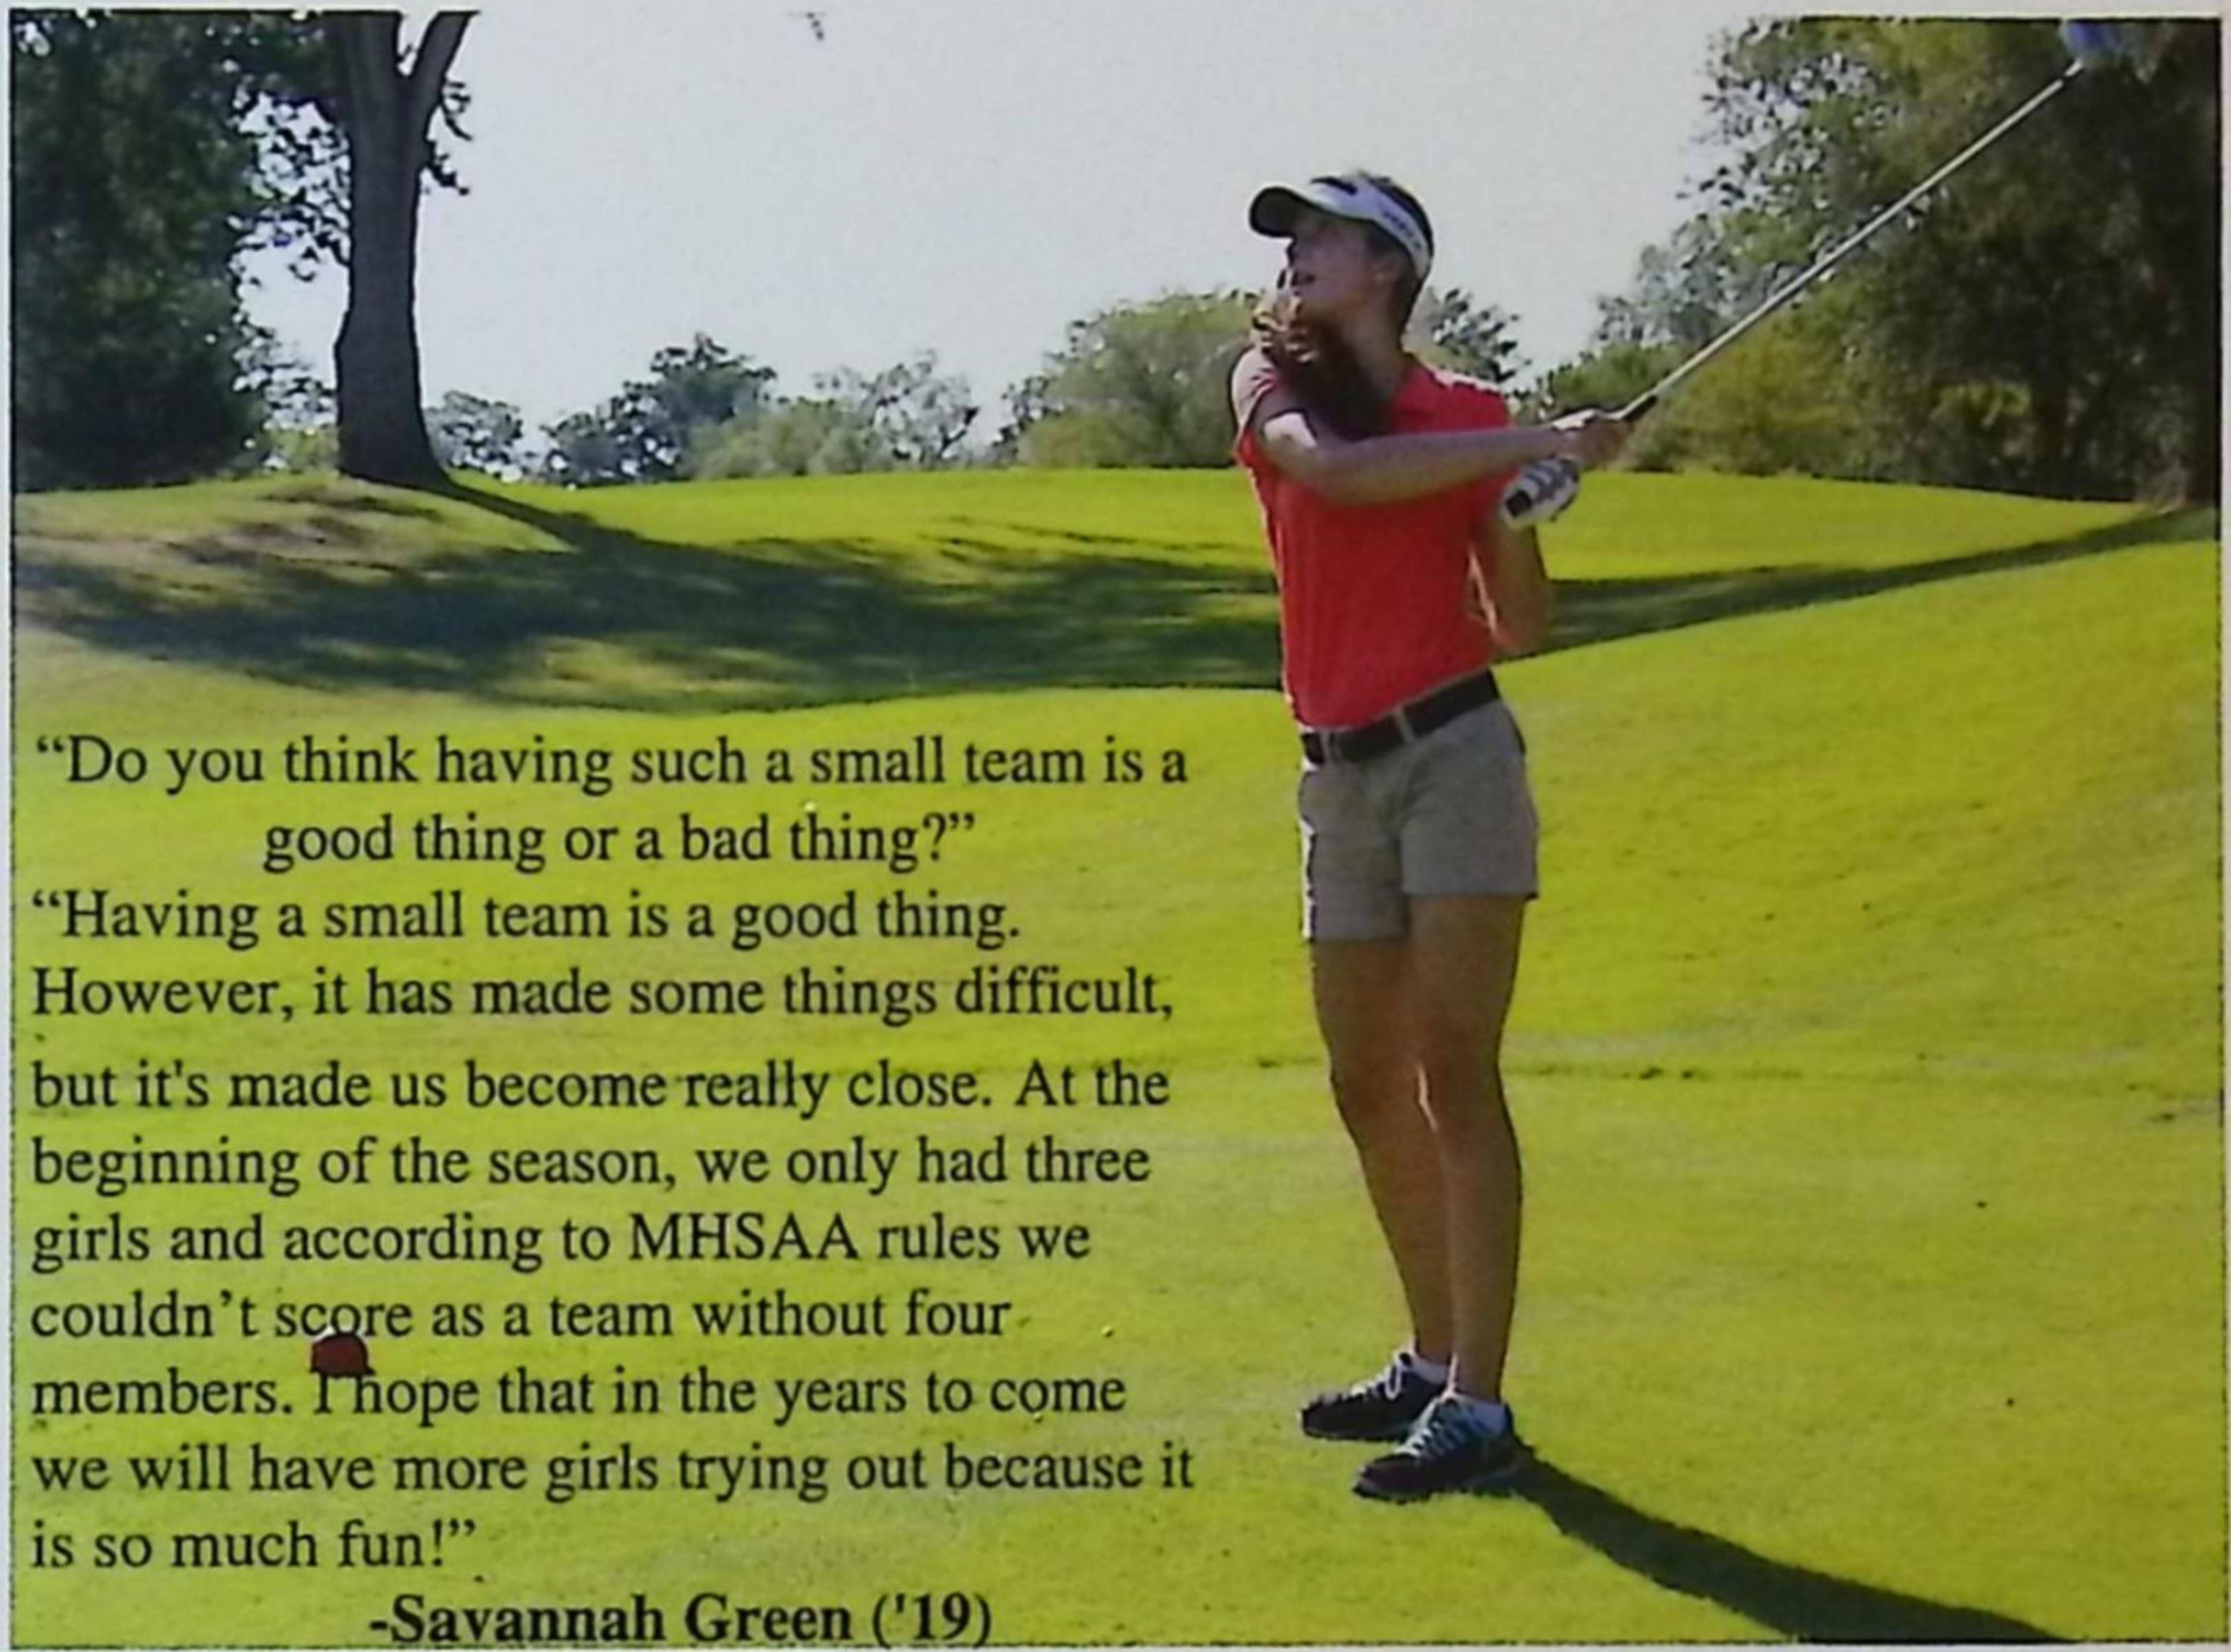
"Golf has been something I've enjoyed since I was four. My brother and sister golfed as well, so this sport was just naturally a part of me. A week before school started, I was golfing with my cousins, and I was driving my Nana and Grandpa's golf cart through the course. As I was driving the golf cart down a hill, I turned and the cart started to drift. The next thing I knew the golf cart flipped and it was on my leg! I tore some ligaments and I had a blood clot, which meant I couldn't put much pressure on my leg. Knowing I couldn't golf for a while killed me inside. I could no longer play the sport I love every day. I had to sit out for several matches, and it was hard watching my teammates golf without me. It took three months for it to heal enough to play and even then it still wasn't completely healed."

-Kara Likins ('18)



"Do you think having such a small team is a good thing or a bad thing?"

"Having a small team is a good thing. However, it has made some things difficult, but it's made us become really close. At the beginning of the season, we only had three girls and according to MHSAA rules we couldn't score as a team without four members. I hope that in the years to come we will have more girls trying out because it is so much fun!"

-Brennen Schaller ('19)

2. "The 2012 and 2013 State Championship wins were both my all-time favorite memories. The most rewarding part of cross country is learning how to be a hard worker, and the things that you learn about hard work can be applied to everything in life, not just sports. The most beneficial part for me has been making friends. I have met so many people in this sport that share a common love, running."
-Walker Child ('16)

3. "My most memorable part of cross country this season was winning regionals. Cross country has made me a faster runner and has taught me valuable skills, such as the positive effects of working hard."
-Derek LaDuke ('17)

4. "It's really fun to win meets and be the best. Cross country has taught me to work hard and be dedicated to something. My most memorable moment from cross country was at the Algonac Muskrat Invitationa when we all got our personal records and we moved up in the state rankings."
-Josh Williams ('17)

5. "I joined cross country as a freshman because I wa involved in track and Coach Davidson encouraged m to participate. My favorite memory was during the summer while we were training. We found this old abandoned house and explored it. It was really fun and one of those days you can't forget. Cross countr has made me more diligent and has taught me how t work hard."

My most memorable moment was last season at the Algonac Muskrat Invitational and this year I relived that moment and shaved off even more time. Cross country has also inspired me to give my best in other things such as academics."

-Logan Jacques ('18)

3. "My favorite moment from running cross country was when I almost broke eighteen minutes, but I didn't. It happened at Metro Beach, but next season I hope to break eighteen."

"Matt, do you have any funny stories or things that you have done that were comical this cross country season?"

"No, I'm always serious."

-Matt Bishop('18)

4. "My most memorable race was Harbor Beach this season when I beat **Daniel Lamontagne ('18)** and got 1st. Daniel was faster than me last year but we are pretty close this year, so beating him was a big deal for me. Cross helps keep my life on track, it keeps my head straight, and helps push me to my fullest mental and physical capabilities."

-Tyge McQueen ('18)

5. "Being a part of a team and knowing how to work together has been one of the best things I have gotten out of running cross country. The best memory I have so far was winning states my freshman year. Cross country has made me a better person in terms of work ethic, not giving up, and persevering till the end."

"The guys' ability to train hard, train strong, and run fast from the summer until now has been the best part about the season, so far. We have 10 guys on the team running under 18 minutes, which is amazing because there is probably not another team in the state that can do that right now. I'm really proud of the team this year; we have the same group of guys from last year and they were just a pretty decent team then, but now we're a great team. It's just the same guys who decided to work harder; especially the sophomore class, they really stepped up. **Jack Keais ('16)** and **Walker Child ('16)** led the team to success. It has just been a great season so far."

-Jessica Bohm ('18)

2. "One of the greatest memories was beating Marine City my senior year. This game was probably one of the best because before the game they were all Tweeting *#beatsc* and talking smack all over social networks. Once we saw that, we were ready to put up a fight to try our best against them. We lost the first time we played them this season, in a very close match, but it was now our turn to come out on top. We had a great student section to support us which helped get us pumped up. That game was one of the most exciting games that I have ever played in, and it is definitely a feeling that I will never forget."

-Sydney Boyte ('16)

"Everyone that was at the St. Clair vs. Marine City game knows it is a day that all of St. Clair will never forget. The Saints beat the undefeated Mariners in a nail-biter. The bleachers were full and we had a huge student section. Senior, Michaela states, "The Marine City game was amazing. We lost to them earlier in the season so we had a lot of motivation to win that game. The seniors had extra motivation since it was their last time playing MC."

"Did the student section help the win?"

"Having a huge student section was breathtaking. They were so loud and crazy which gave us so much energy, and the support we needed, in order to sweep the match. Having the community there to watch that big game just reminded me how thankful I am to grow up in such an amazing town."

-Ryan Romine ('17)

1. "Even though my pumpkin face was very simple, the time I spent carving it with all of my friends gave the simple face a deeper meaning.The event reminded me of Halloween night when I was younger. My friends and I would sit around all of the candy we collected and switch the ones we didn't like."

-Aubrey Grevemeyer ('17)

2. "My dad had a creepy costume just lying around the house, so I decided to wear it for Halloween. My mom did my makeup so scary that when a little kid walked up and saw my face, he sprinted away screaming."

-Seth Pinnoo ('17)

3. "During our Halloween-themed team dinner, the girls grabbed my dog, Buddy, and began to stunt with him. Surprisingly, he wasn't scared and flew high in the air as if he were a cheerleader himself. We love him so much that he, of course, had to pose in the picture with us."

-Sara Rann ('17)

"When I was around eight or nine, I remember going to Greig Park almost every day over the summer. I would immediately run to the swing set and my mom would push me. One time I decided to go on the swing all by myself, and I was doing great at first. That was until I slipped off and face planted into the wood chips. It was a pretty tragic moment for me back then, but looking back...it makes me laugh at the silly memory."

"How did you feel about your egg being the only survivor of the highest drop?"

"I was really surprised that my egg made it that far. It felt really good especially since some of my classmates, including myself, did not believe that it would survive. Interesting enough, my sister won the egg drop years ag when she was in A.P. Physics, which I found funny sinc I won this year. My device was quite simple. It was two sponges, rubber banded together, with the egg enclosed inside and a piece of paper acting as a parachute on top."

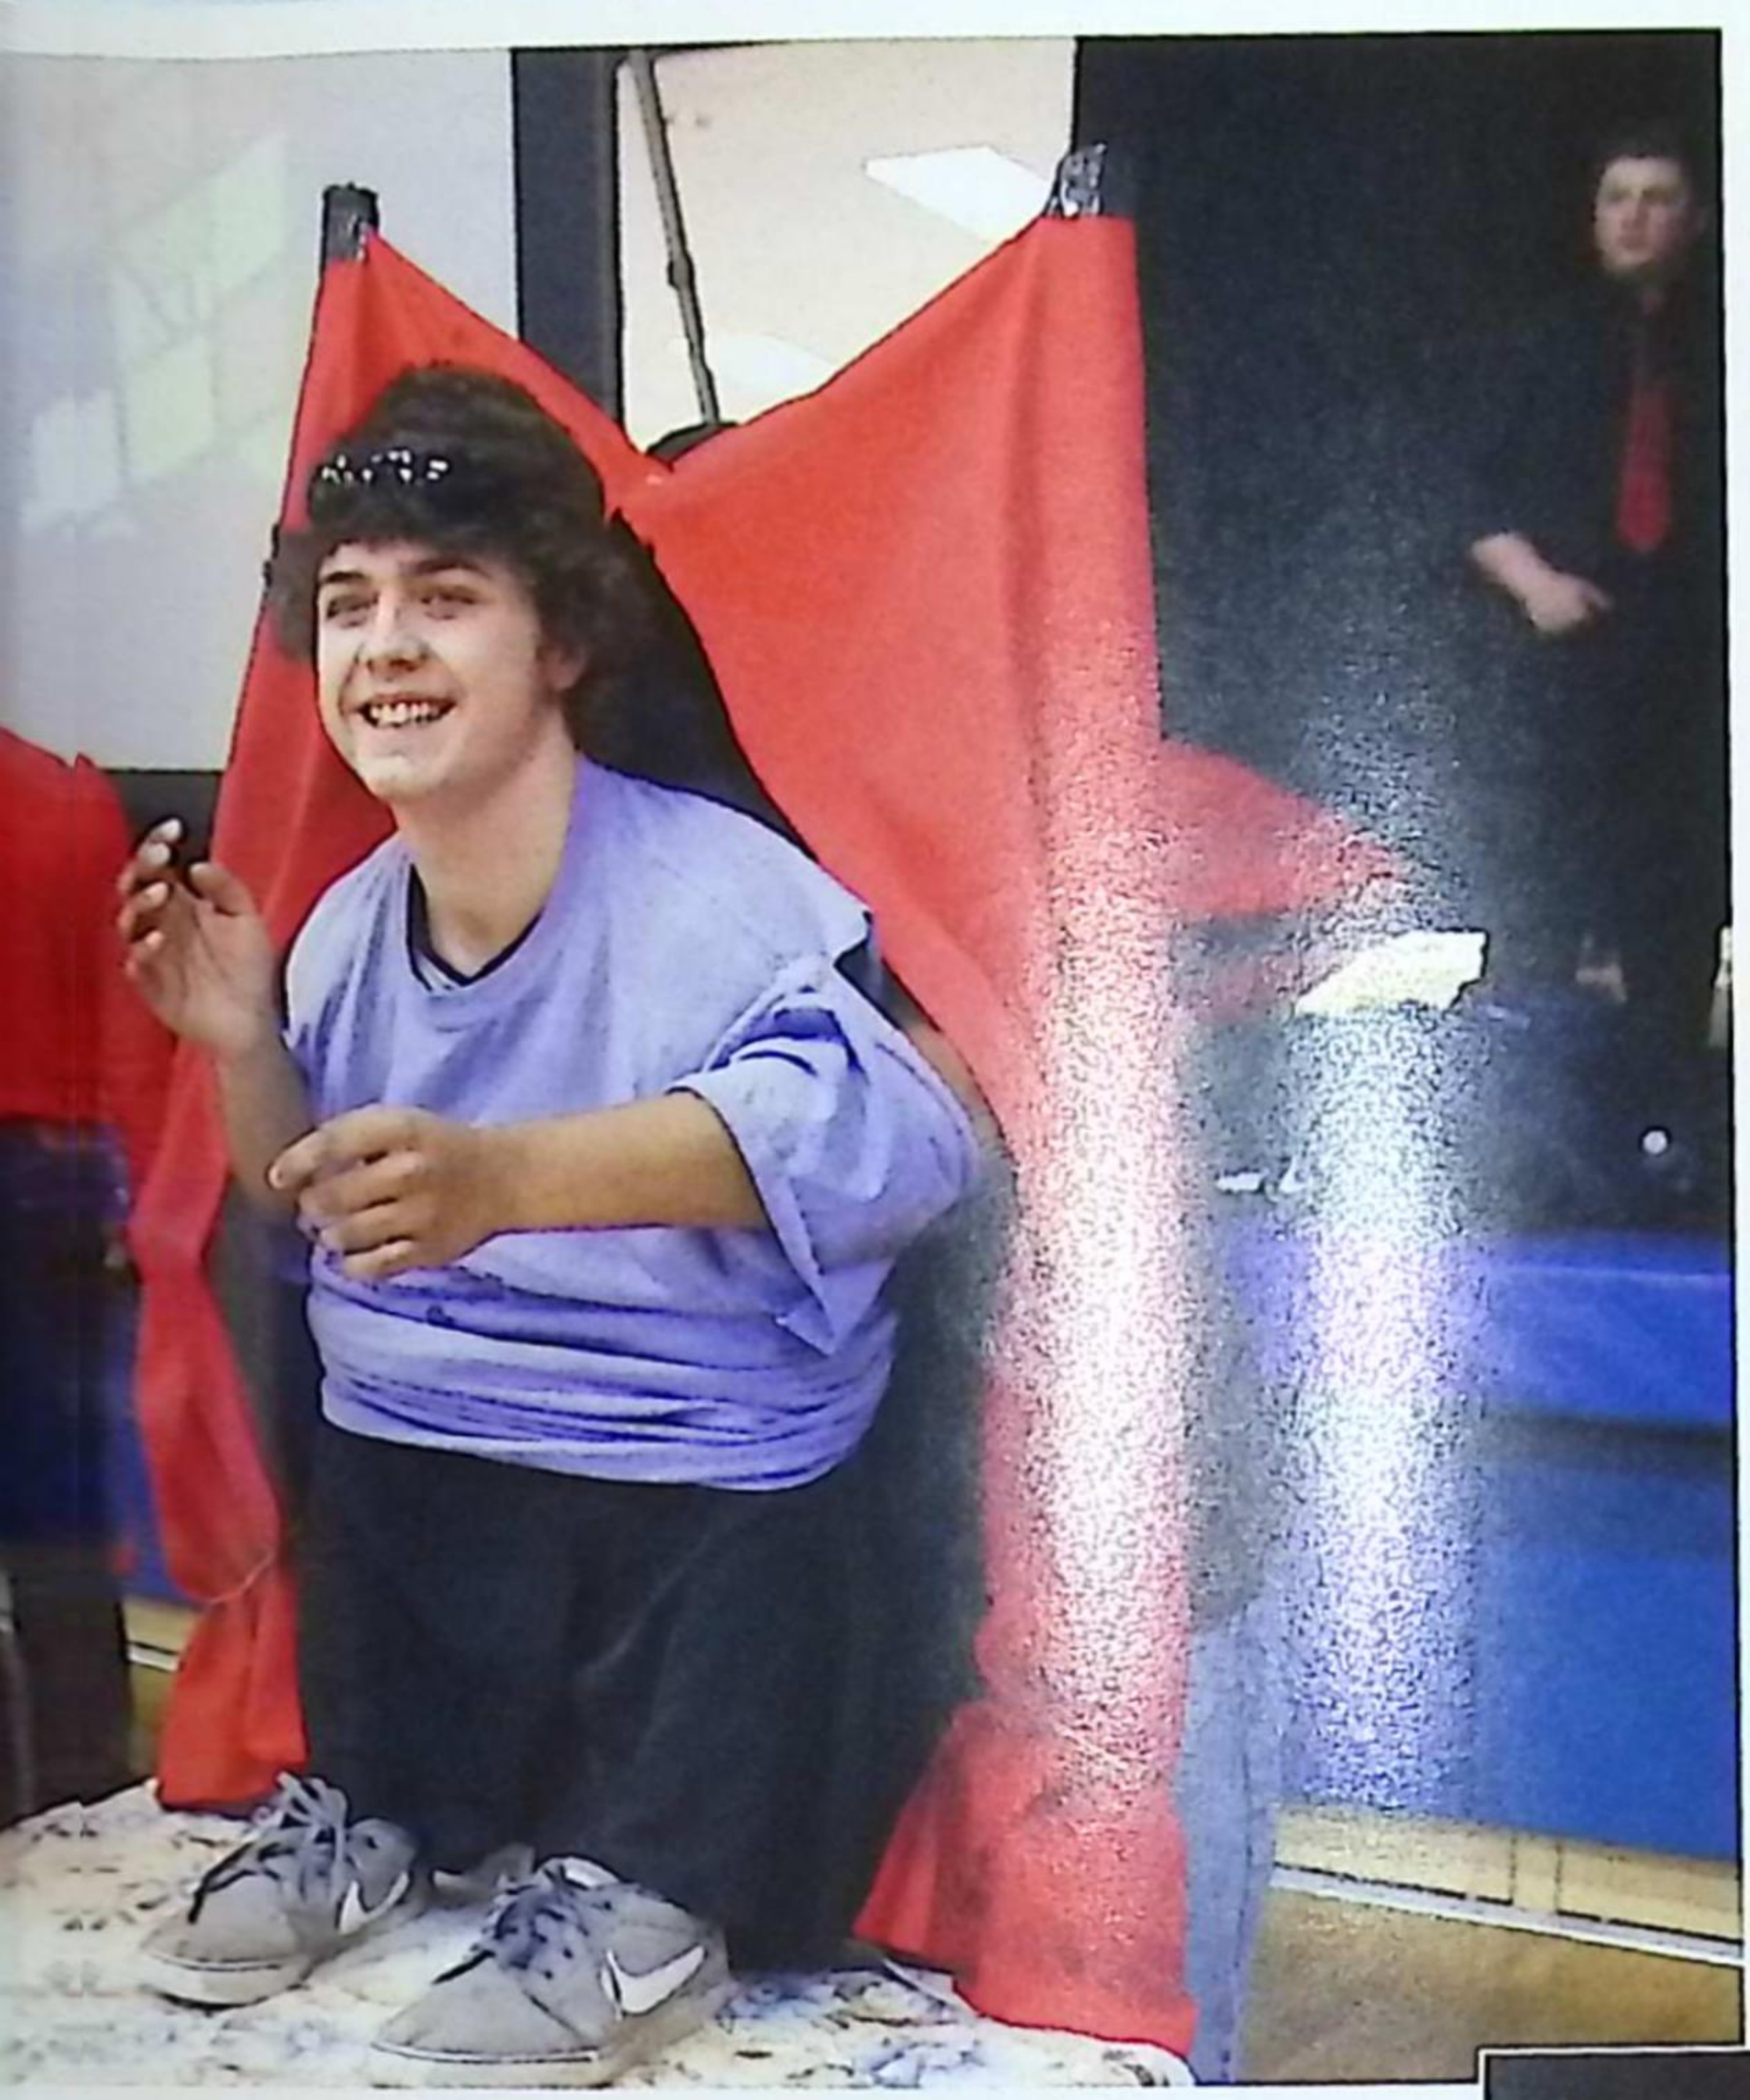
WE'VE GOT TALENT



above: "I love dancing; I first started dancing six years ago. I was a little bit nervous to dance in front of the whole school but it was a good feeling. I love to do shows, so I really enjoyed performing in the talent show."

-Salendia Bogar ('16)

above: "How long did you practice for the show?"
"One day prior to the day of the talent show and also one other time. We spent most of our time picking some spunky moves to display for the school."
"Any funny moments or memories from the show?"
"We never got to the best part of our routine...thanks to a teacher that shall remain nameless. It was a blast participating in the SCHS talent show."

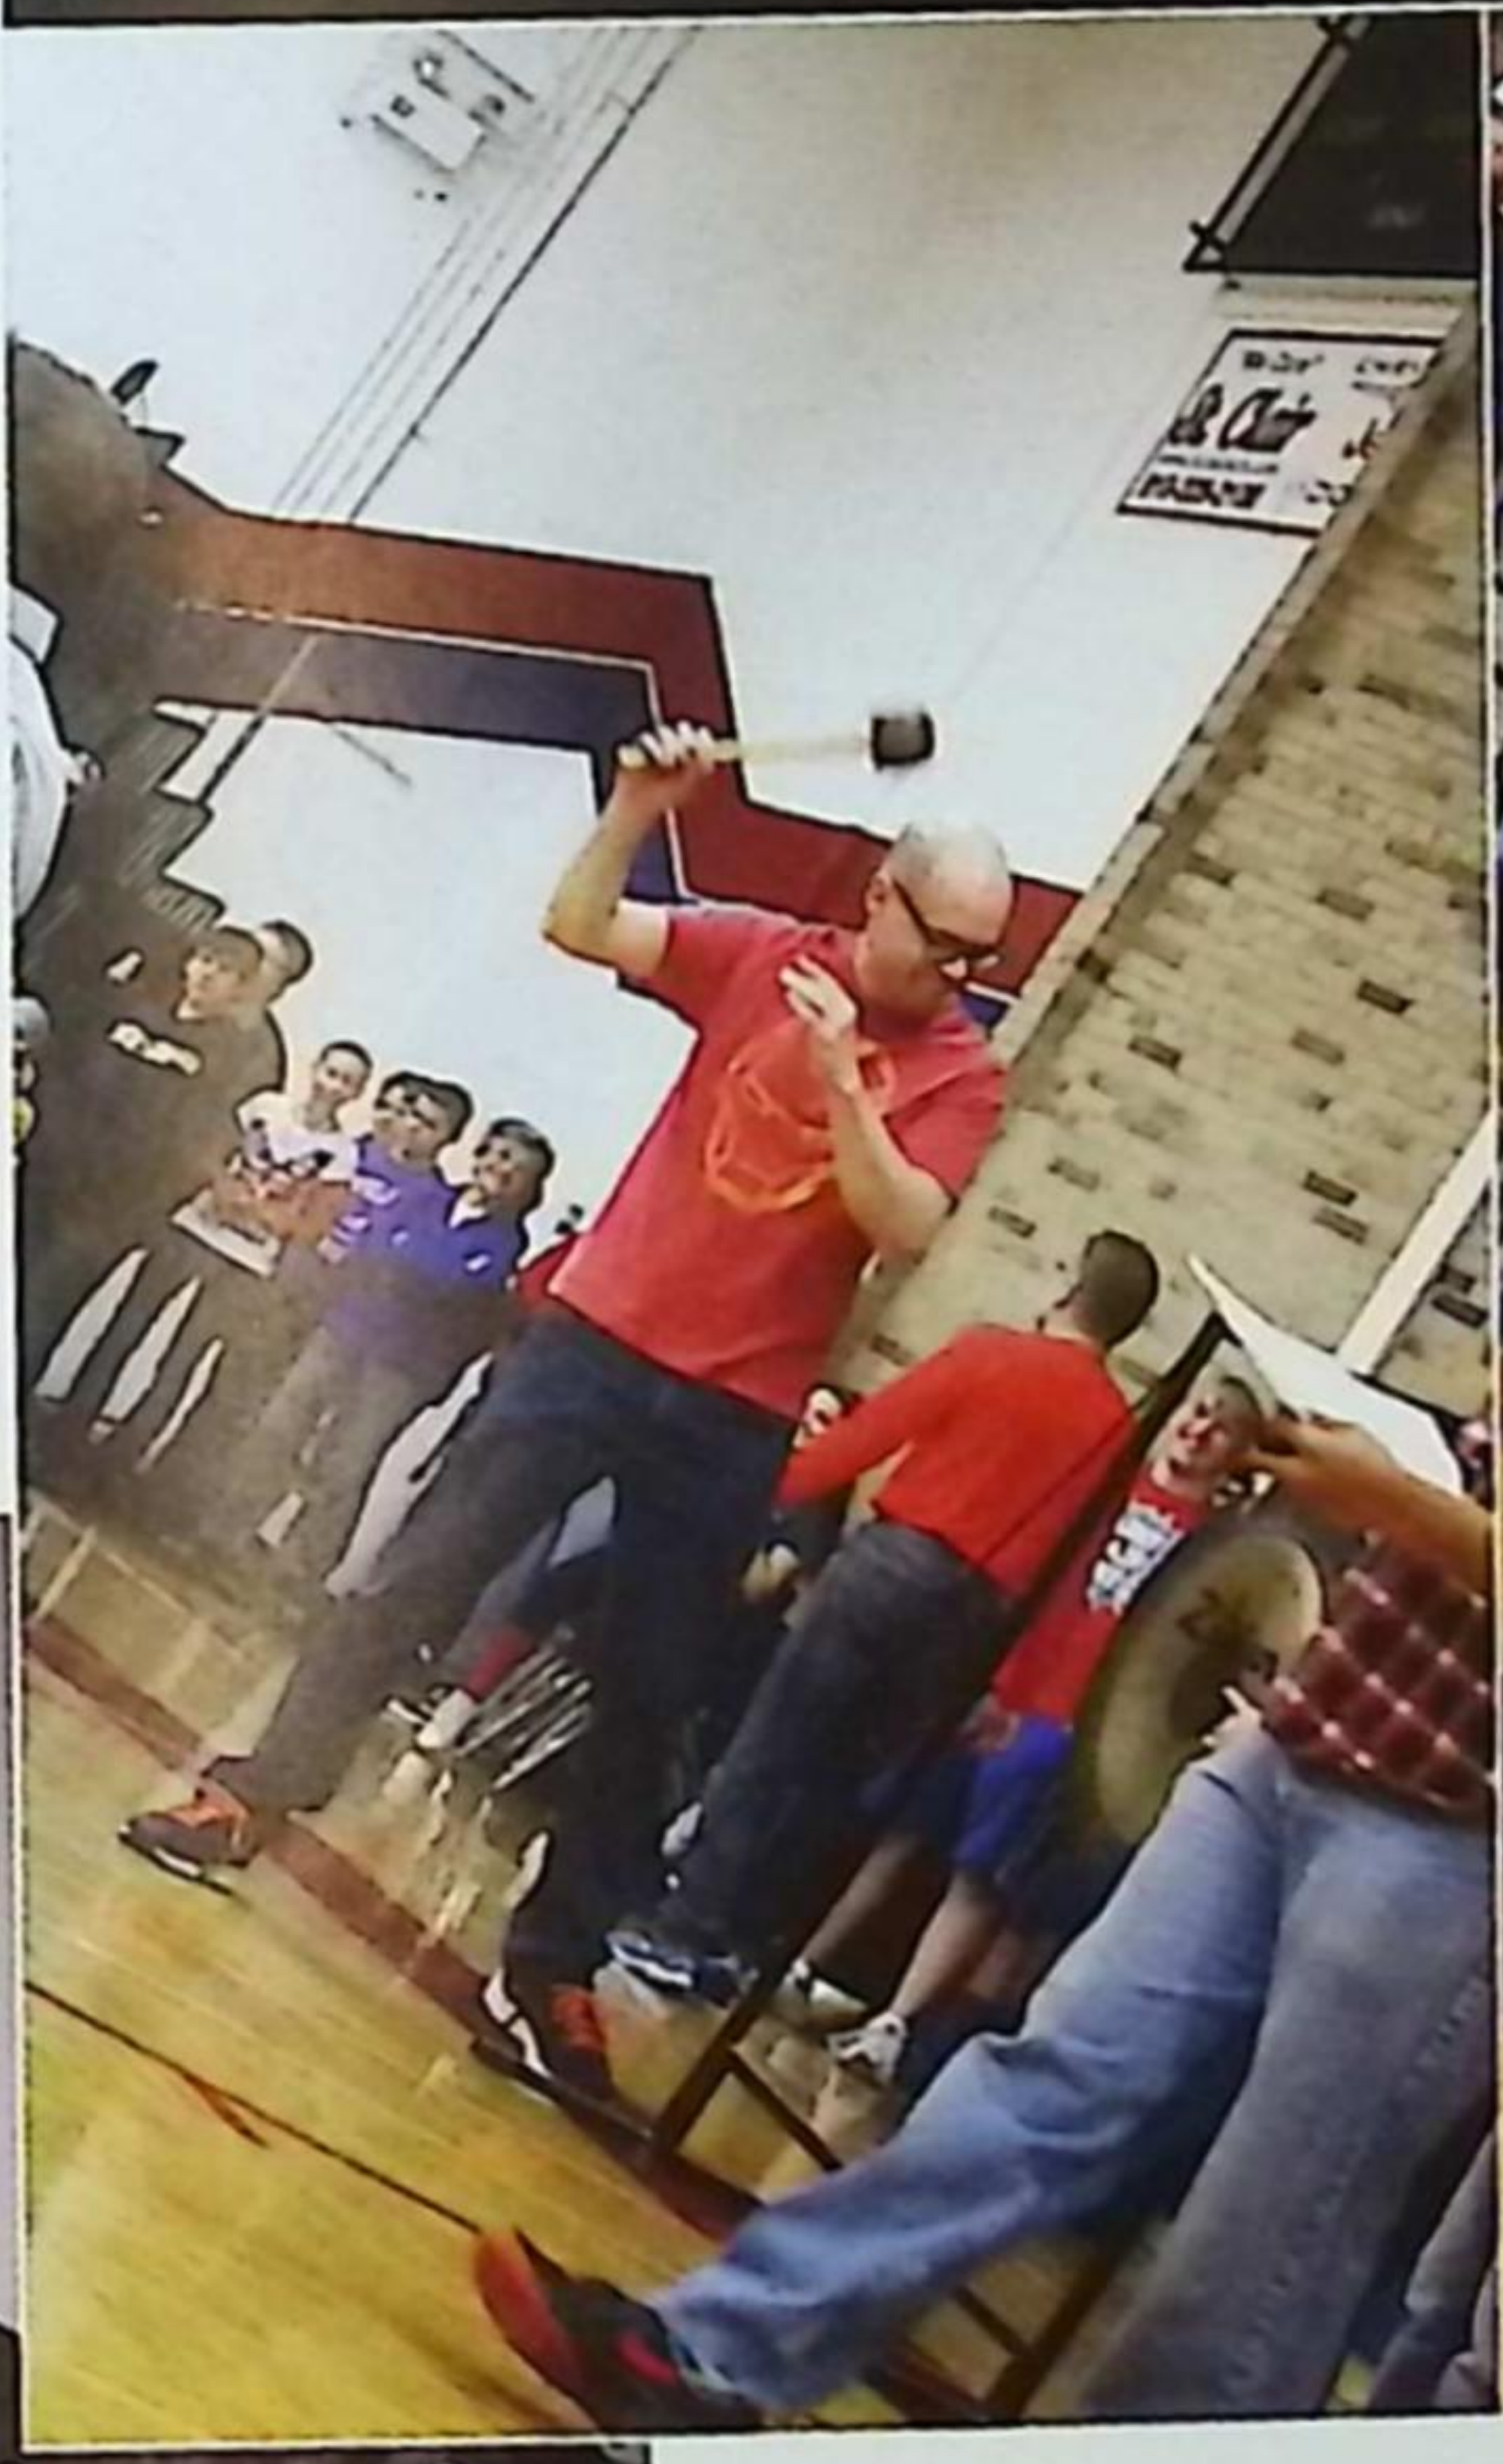
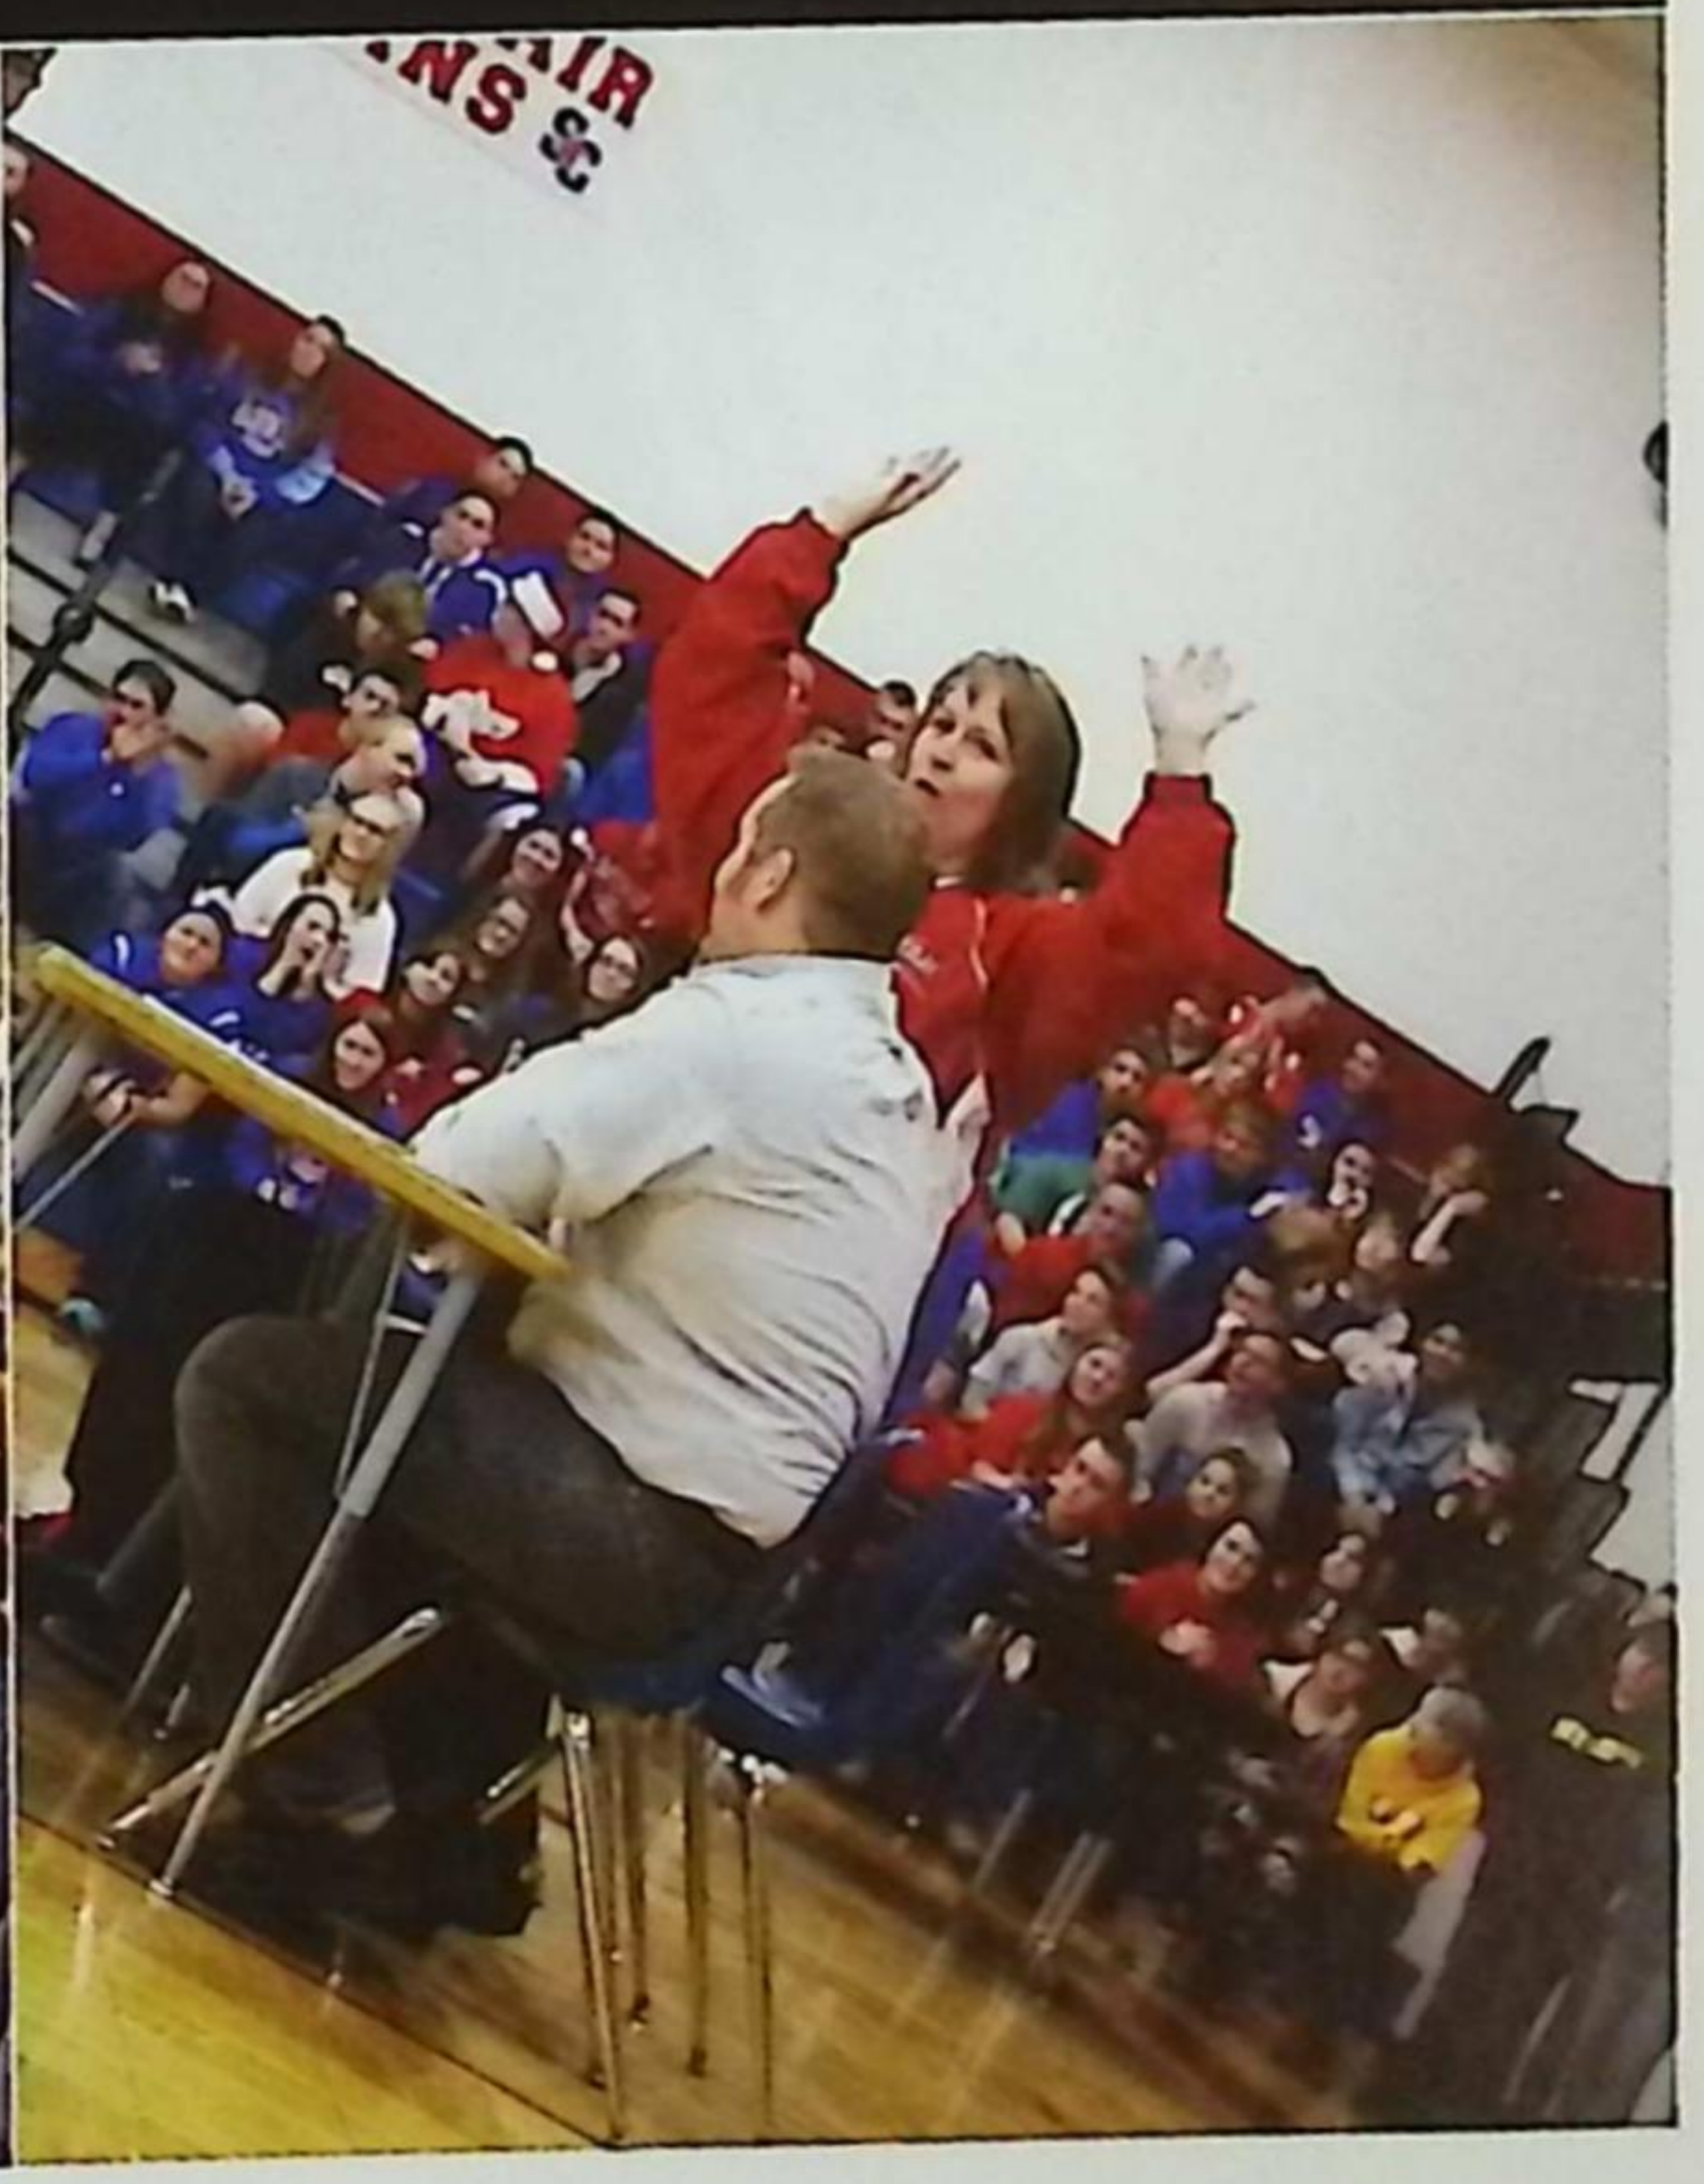
-Mr. Diller





Alexander Beals ('18)

far left: "Why did you want to learn to unicycle?"
"My 17th birthday was coming up and I wanted to do something challenging and fun that would get my mind off of my Dad's illness, so I requested a unicycle. My parents had some doubts, but I proved them wrong. As far as how much time I devoted, it took me around 55 hours of training, 45 hours of riding, and 10 hours of free mounting. I taught myself to ride by watching a five minute YouTube video and reading books from Barnes & Nobles. For anyone who would like to learn to unicycle, my words are 'Weight on the seat, not the feet.'"

Bethany Umloff

Dear Bethany,

As you graduate, one chapter in your life is closed and another is about to begin. The future stands bright before you, so take hold of your dreams, and no matter what...don't let go. There will be times ahead when you will feel overwhelmed, but try not to give up, for nothing which is worth anything, comes without hard work and sacrifice. When you were a little girl we held your hand. We guided you and protected you as best we could. It's time for us to let go now. There is some pain in that. Still, there is also a wonderful sense of pride, and accomplishment as we look at the beautiful, young woman that you have become. We love you, and we pray that our love will sustain you. It's time now to spread your wings and fly. We are very proud of your accomplishments! You are all the dreams we prayed you would be, and more. A perfect daughter, and a wonderful sister!

Love always, Mom, Dad, & Joey

Bethany,

"If we could give you one thing in life, we would give you the ability to see yourself through our eyes, only then would you realize how special you are to us." -Author Unknown

Dear Walker,

It's been an amazing journey watching you grow from the toddler with his favorite toy truck, to the tween with his BMX racing bikes, and then the young man who still plays with scooters! There are so many facets to your personality: sportsmanship, dedication and athletic skill in cross country; leadership in student council, compassion for others in church mission trips; participatio in theatre troupe ranging from set construction to backstage crew, and also singing and dancing o stage. These are all parts of what makes you the unique and incredible person you are. We are so proud of you and can't wait to see where your future takes you.

All our love Mom and Dad

Jacob,

You have been a fighter since the day you were born. Over the years, you have made us laugh, cheer, and even worry. Your amazing determination, despite the challenges, is so inspiring. You have accomplished so much, and we have no doubt you will fight to succeed in your life.

As you start this next phase of your life, we are both excited and a little sad. You are going to make such a difference in so many lives, but we will no longer have you all to ourselves.

As you go forward, remember to be compassionate, be open to new experiences, be true to yourself, and follow your dreams. Work hard, stay positive and believe in yourself and those who love and care about you. Be confident…you are an intelligent young man. Make time for fun, laughter, friends, family, and love! Think before you act, so you never regret your actions. Learn from your mistakes.

You are such a blessing to our lives, and we are proud of you! We will always be there for you, through every step of your journey…no matter when or where you are!

We love you so much… Mom, Dad, Corrine, and Grandma

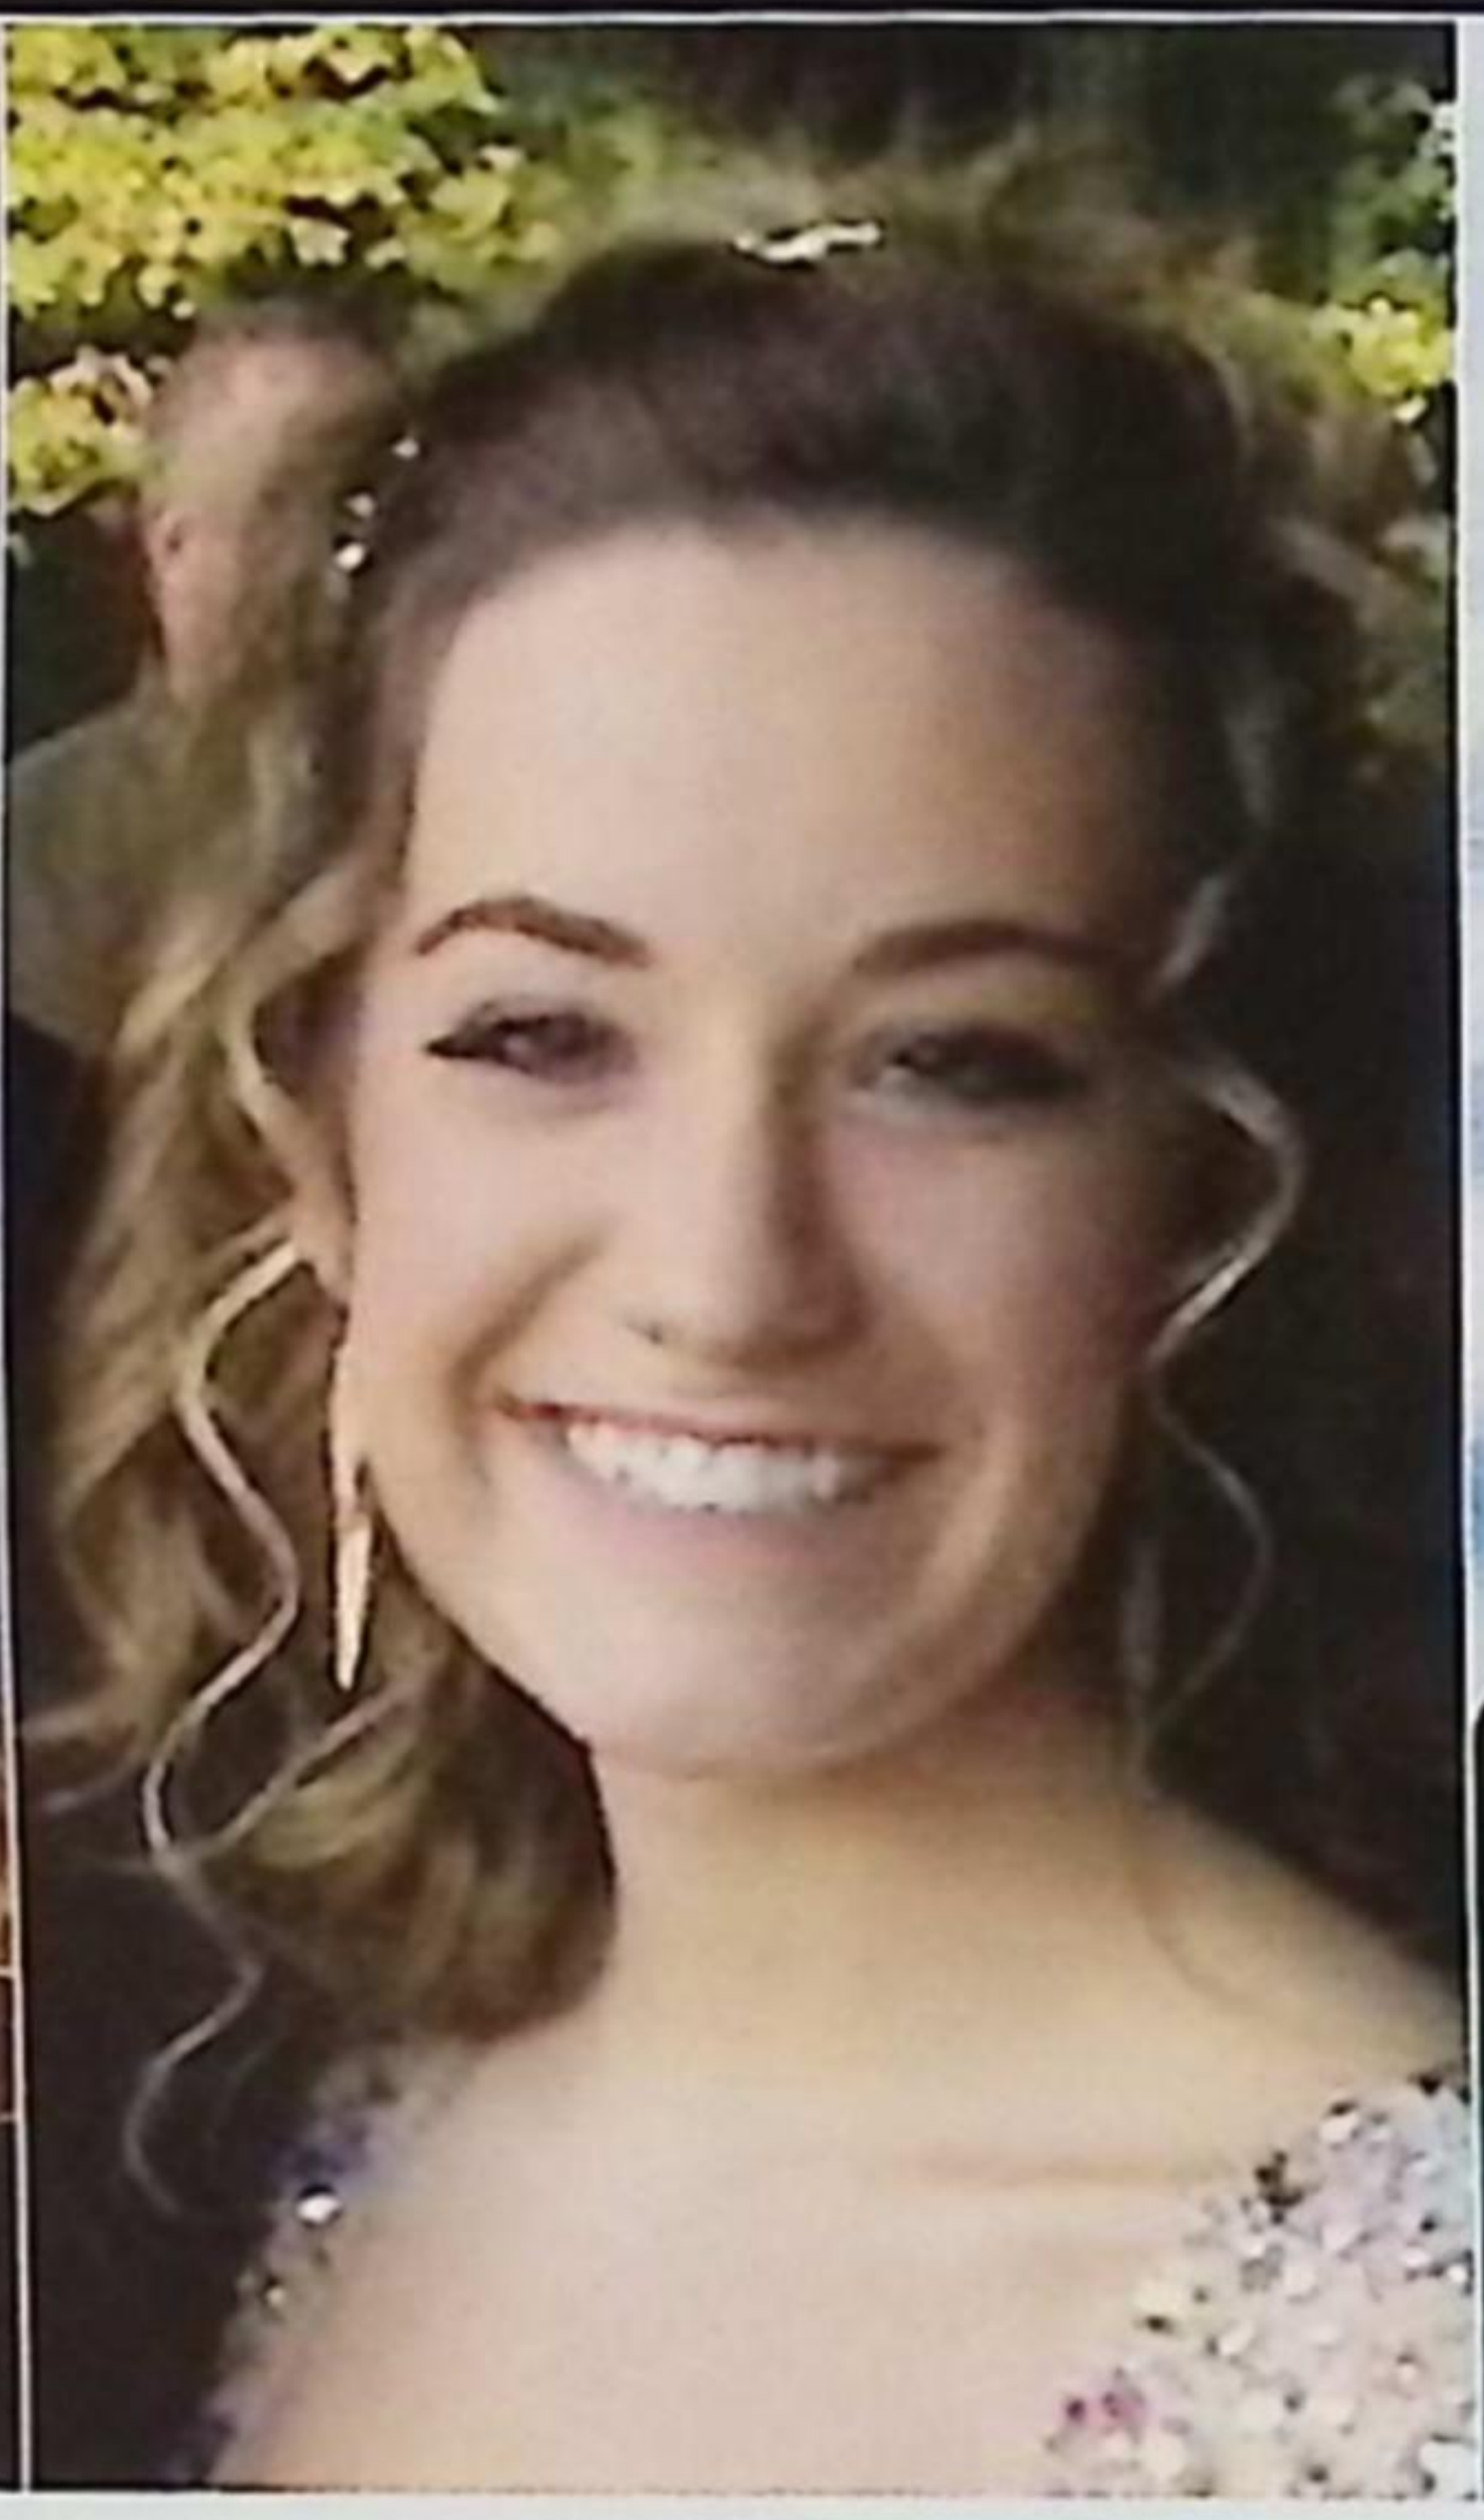
Congratulations Claudia on your many accomplishments! You have brought such laughter and excitement to our family. It has been an absolute joy watching you become the sweet, creative, fun, loving, amazing person you are! All things are possible with your strong will and determination. We wish you nothing but *happiness* and success in all of life's adventures! Start this next chapter knowing that we love you more than you know and that we couldn't be more proud!

Kelly Kaczmarek

You are my Shining Star! As I look at you I do not see the passage of time. I see my little girl scaring Grandma awake, swinging with Kringles and running with little Matthew in the yard. You have grown into such a beautiful, talented, intelligent young woman whom I am so very proud to call my baby girl. God has blessed me with such a gift I will hold in my heart forever. As you go forward in life, always know that you can achieve anything you set out to do with hard work and determination. I hope life treats you kind, I hope you achieve all your dreams, but most of all I wish you joy and happiness every day of your life. Always remember, "You is kind, you is smart, you is important."

I'll always be your #1 fan. With much love and pride, Mom (I luf you)



David Hankins

From the haircut you gave yourself to the times you took things apart just to see how they worked, every day has been an adventure. We wouldn't have missed it for the world! We are so proud of the caring young man you have become. Believe in yourself and keep God first in your life and the best is yet to come.

We love you, Mom and Dad

Jacob,
You are a dream realized, a gift from God! Not only to your Father and I, but the whole world. "Proud" can't begin to describe how we feel. We are overwhelmingly blessed and honored that God chose us to be your parents. We know you are going to do AMAZING things with your life. We can't wait to see how the chapters of your life are going to unfold.
God Bless You, Son.
All our Love, Mama and Dad

Jacob,
Nearly 18 years ago I was blessed to become a "parent" for the first time and fortunate enough to claim YOU as my Godson. As any parent would hope, you have never ceased to surprise, impress, amuse, and inspire me. I cherish the memories I share with you and look forward to those we will make together in the future. Cali here we come!
Oh, and…I solemnly swear that I am up to no good.
Much love, Aunt Dominique

Jacob,

The 2015-2016 yearbook was produced by Jostens Printing and Publishing in Topeka, Kansas. The 220 page book was printed in color for the 11th consecutive year. The completion of this book would not have been possible without the help of our Josten representative, Michael Page, and our in-plant representative, Cathy Goodman. The 16th computers used by our staff are all equipped with Windows 7, which allowed us to access Josten's online site, Yearbook Avenue. Also, Adobe Photoshop CS2 was used by all staffers to edit the photos on the pages. The book mostly used three fonts: AYT Times New Roman, AYT Ennis Light, and AYT Chantilly Heavy. The cover's design was established by a majority of the yearbook staff.

Mrs. Wes (Aunt Karen)

Thank you so much for nominating me to become editor early in my sophomore year. I was honored and I still am! I'm so glad I got to work with you for three years! Our visions of the book really fit together nicely, and together, we were able to accomplish and learn new things this year. Without your guidance along the way, this book wouldn't have been the same. Throughout these years you have helped me find my inner creativity and allowed it to shine through. Thank you for believing in me and making yearbook a fun class! I'll miss seeing you everyday!

Office Staff:

(Mrs. Butlin, Mrs. Durham, Mrs. Mead, Mrs. Robbins, Mrs. Foucher, Mrs. Steinland, & Mrs. Zoeplitz)
Thank you for continuing to helping us throughout the year. Without your assistance, this book would not have been completed! We are so lucky to have such a supportive office staff! No matter what we asked of you, you were always willing to help.

Mrs. Brosky & Mrs. Short:

Thank you for offering us your assistance throughout the year! You both have contributed so much to this book, whether we needed extra picture to finish a page, or your advice. We appreciate everything you've done for us and we cannot thank you enough!

Bethany- Guess what...WE FINALLY FINISHED! Thank you so much for taking care of business this year and for always being there for me. You are so hardworking, and your dedication to this class over the past three years has been incredible and I cannot thank you enough! Your future's SO bright and you are going to go far!

P.S. I can't wait to see your name on the Forbes list in the near future.

Jessi- You are so hardworking and determined. I'm so glad you joined this year! It's awesome that you and Brielle are going to work together to create the yearbook next year. After all, I cannot thank you enough for helping me; no matter what I asked you to do, you always did it. I really appreciated it!

Maddie- Although you were [illegible] in class you adapted really well and did an amazing job staying on top of everything. Honestly, I don't know how you did it! Thank you for continuing to do your job and doing it well.

Kenzie- It's difficult joining a class as a newbie; especially yearbook. It takes hard work and determination, but from day one you proved that you had it in you to do your best and try your hardest. I can't wait to see how you contribute to the yearbook in the next few years. Keep up the good work!

Sam- You put so much time and effort into getting the senior pictures and quotes done and for that I thank you. Although, Joe Biden is the love of your life, I have a feeling that you have room to love Donald Trump too. If you have the audacity to be so meticulous to point out that Biden is the only one for you, then you simply lack effulgence. Continue to stay weird and live authentically!

Brielle- You and Jessi are going to make a great team next year! Just remember to always remain calm no matter how stressful deadlines can be. I can't wait to see all the things you will accomplish!

Kyra- In the beginning of the year I know you had a hard time getting use to your job, but you did an awesome job adjusting! No matter what, you made the best of every situation and were very open to learning new processes and tasks. Thanks for all your help with photo editing and your overall dedication to the book!

Megan- You are going to be a great business editor next year! You were so focused and determined to do your absolute best at everything that was given to you and that showed when your were creating the IPPA's. I cannot thank you enough for devoting so much time to this class. Good luck next year!

Kaitlin- Your innocent nature kept everyone at ease, and your artsy skills added a unique touch to this book. All year long you were determined to get all of your work done early and were always ahead of the game. Stay creative and have a great senior year next year!

Kara- You were so dedicated to this class and I cannot thank you enough. The amount of time you spent on all of your work really showed on your pages! Never lose your drive and keep up the rapping; you'll go far! :)

Molly- I'm so glad I got the opportunity to work with you for three years. You stuck with this class and I'm glad you did! Creativity is key and your creative skills shined from the day you joined. I wish you the best of luck with whatever you choose to do next year.

Brooke (BM$)- We started this class together and now we are finishing it together. May all those crazy yearbook photos of you live on, your British accent revive, and your killer singing impressions of "Chicago" be discovered. "Come on babe we're going to paint the town... and all that JAZZ." Thank you for all of your contributions to this book.

Mia- You improved so much from the summer and you caught on quickly to how the class works. From the start, you were very open to learning new techniques with the Gopro and cameras; it really showed in all of your work. Thank you for all of your help first semester!

Emmy- Thank you for continuing to work hard throughout first semester. You and Kaitlyn worked really well together. You welcomed all the newbies this year and that was really awesome to see! Good luck with your future and have a great year next year!

2016 SENIOR

KYRA BAUMGART
PHOTOGRAPHY EDITOR

"Being in yearbook has created a lot of interesting memories, especially when you're trapped in a room with a bunch of stressed out girls. One of my favorite memories has been of Bethany when she yells at the printer. I have never met anyone that has hated something more in my life. At least once a day she would yell at it and threaten to beat it with a bat. In addition, I have enjoyed all of the singing, laughing, jokes and even the complaining. The past two years have provided me with an unforgettable experience and I am grateful for the memories and friends that yearbook has allowed me to gain."

BEST OF LUCK WITH YOUR BUSINESS CAREER!

BROOKE MAHN

"Sophomore year I remember quietly walking into the yearbook room, looking around, and I was immediately intimidated; I wasn't sure what I was getting myself into. Feeling confused and scared I proceeded to listen to the editors and do exactly what I was told. Keeping most of my thoughts about the book to myself because I felt timid in a class full of upperclassmen. As my sophomore year came to an end and my junior year was beginning, I realized that I would be given more responsibilities. I started to speak my mind much more, I expressed my opinions in class, and was involved in the plans for the book. Now, as a senior, I feel as if I am the person who has evolved into someone who speaks their mind all of the time, sharing how I feel about the book, and expressing my creative ideas. Yearbook has helped me find new interests and grow as a person. It is a great class full of great people, it will be missed."

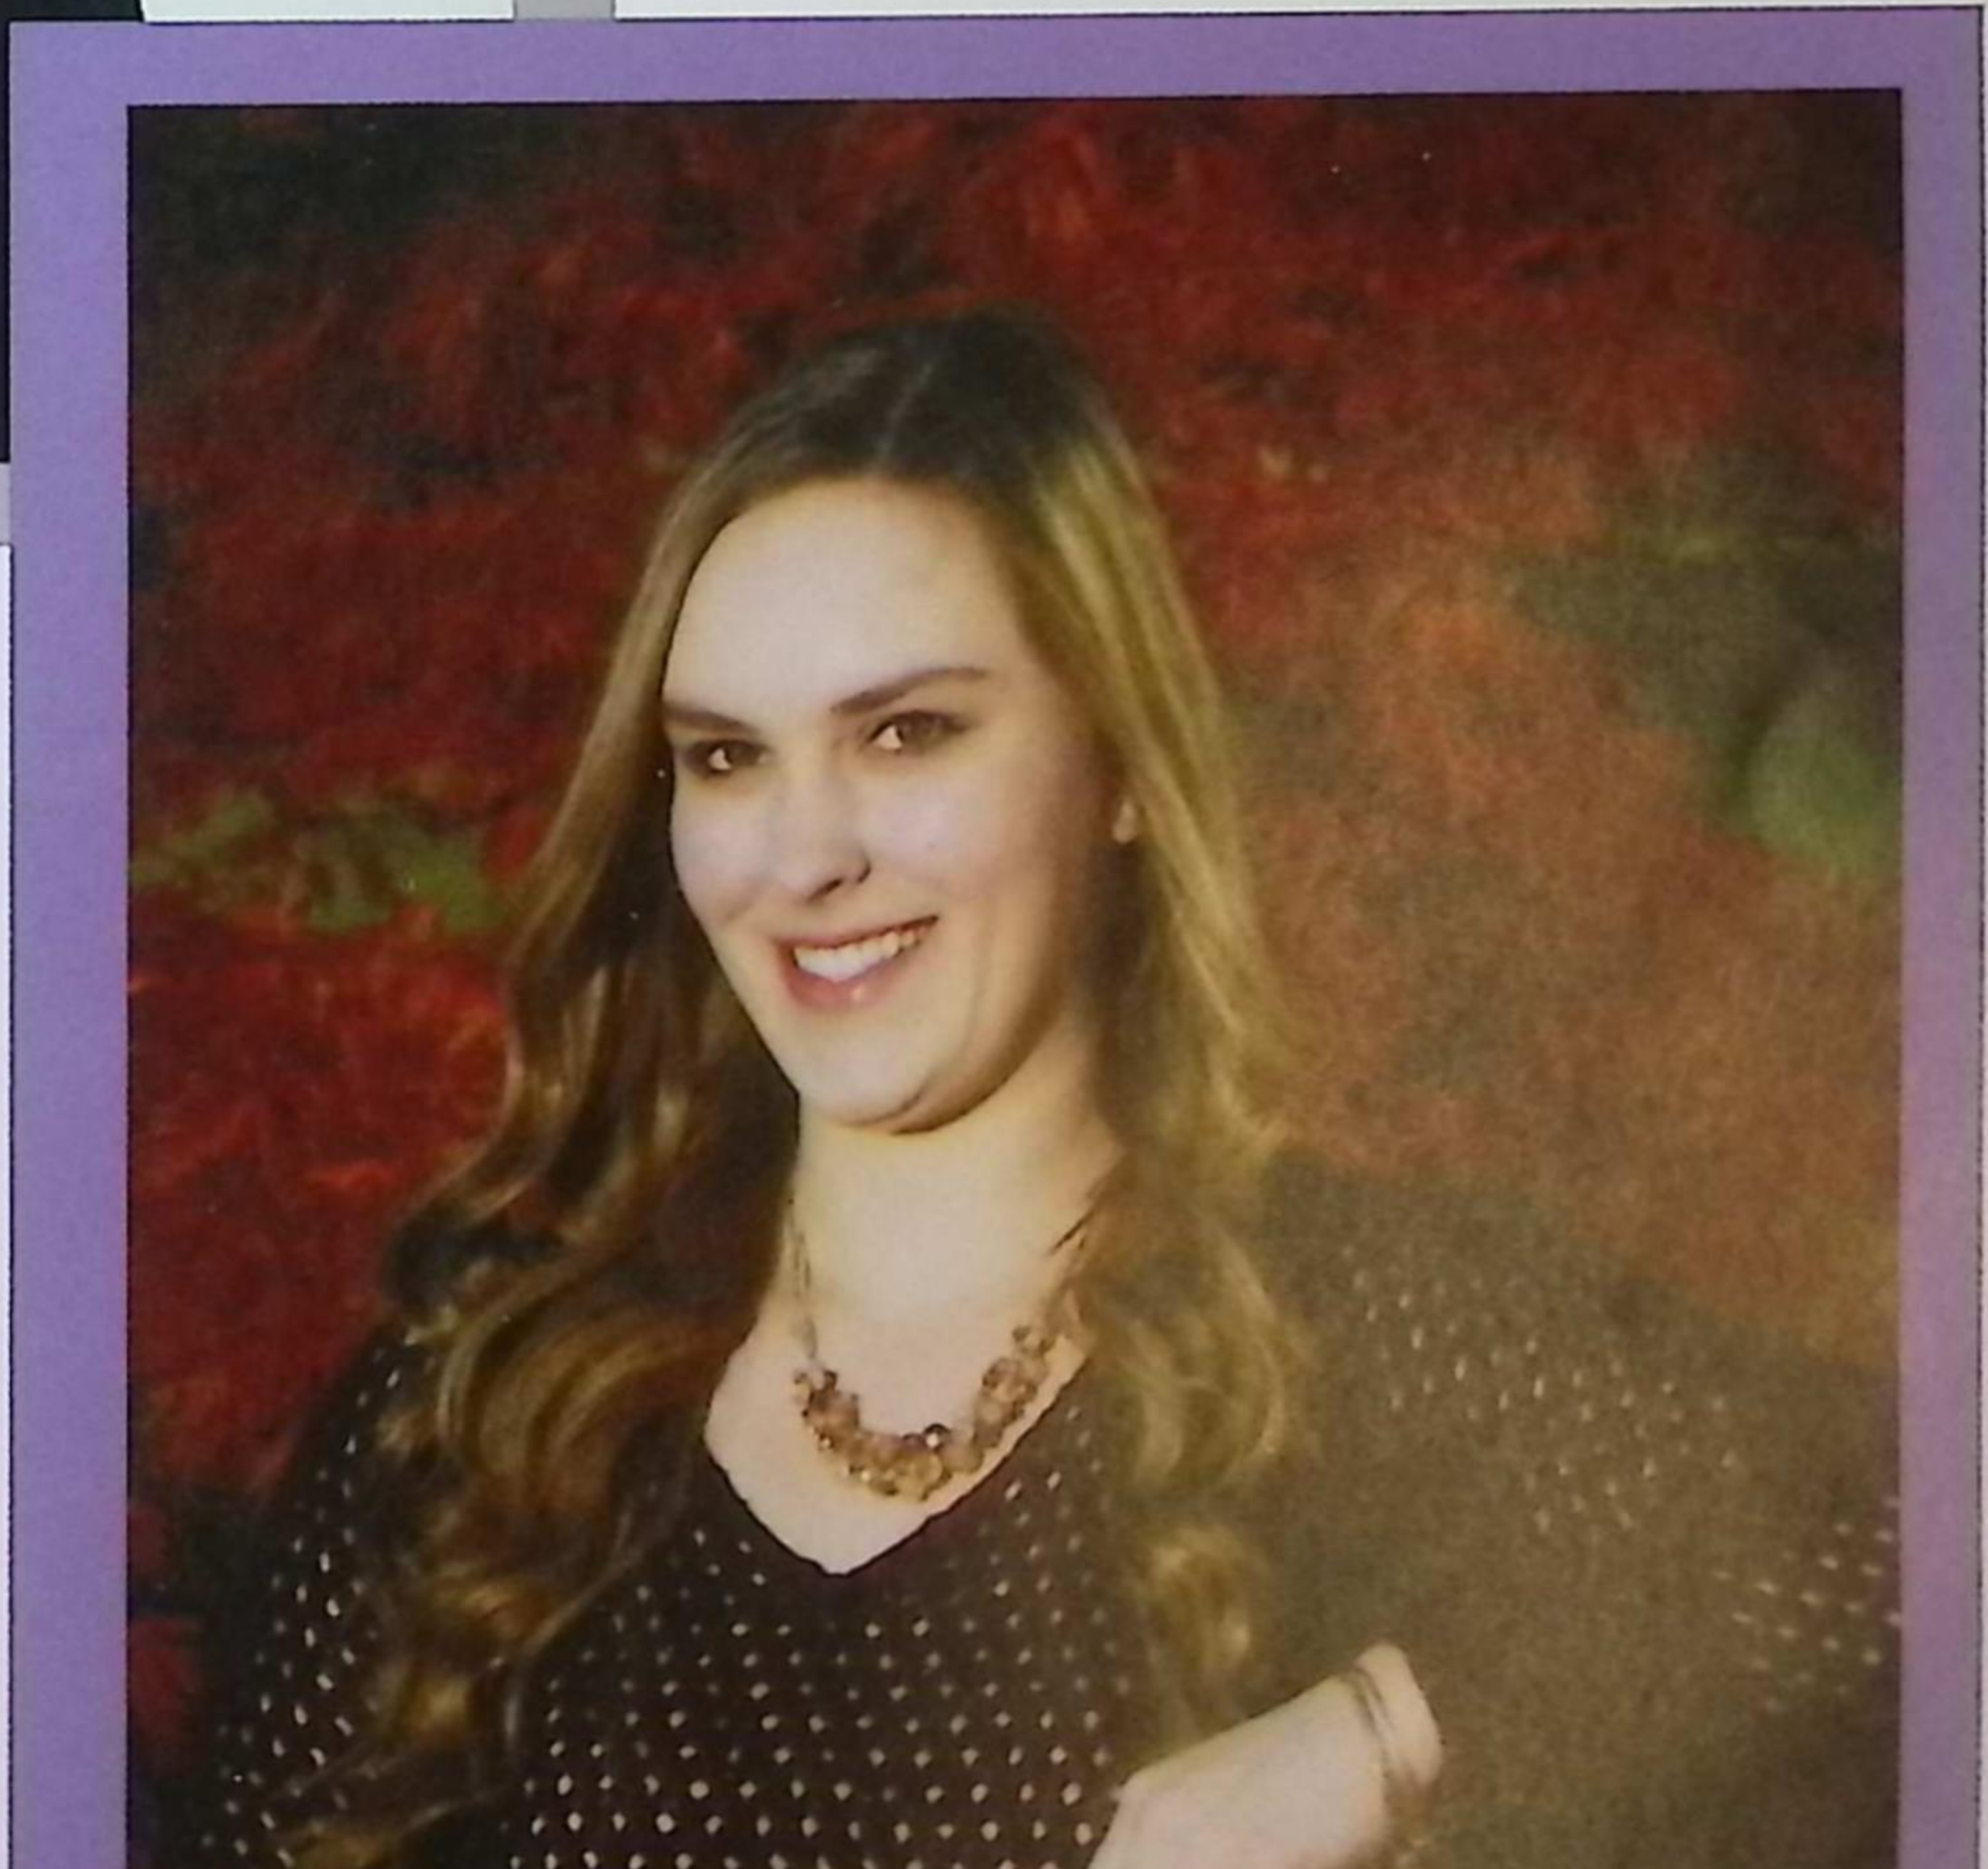
SAM SCOFIELD
SENIOR SECTION EDITOR

"I joined yearbook later in the summer at the start of my junior year. I remember that on my first day, I was intimidated because everyone seemed to know what they were doing, and there were a lot of upperclassmen. Afterwhile, I was able to get how the class worked. Yearbook has allowed me to practice and develop my communication skills and learn how to handle new responsibilities. This year I was in charge of senior pictures and quotes, which gave me the opportunity to organize how things were done. I enjoyed being in charge of a certain entity, while contributing to the team effort in yearbook. Aside from what I have been able to experience from these two years, yearbook has inspired me to practice photography. I will definitely remember this class in the future."

WHITNEY WESTRICK
EDITOR IN CHIEF

"The first year I joined this class I was a little hesitant because I didn't know what to expect or if I would get along with the other staffers. Little did I know I had nothing to worry about. I would say that all of the senior staffers my sophomore year definitely had a strong influence on my overall love for the class. Each one molded me in a unique way. Dee Donakowski and I had a strong relationship prior to my joining of the class. She took me under her wing and taught me how to be a hard worker and how important it is to remain calm during the stressful deadlines. Another staffer that had a positive impact on me was Allison Shaune. Allison was an easy-going, *Tangled* loving, Editor. She showed me how important it is to have a good time while taking care of business." Although Whitney is not sure where she is going to college, she does know that she wants to go into the medical field.

Good luck with EvErYtHiNg and thanks for three great years!



BETHANY UMLOFF
BUSINESS EDITOR

"Yearbook has definitely been quite the experience these past three years. One of the things I will never forget is my first Business Push that I attended right after I joined the class, halfway through the summer. I remember being super nervous because I had to drive around with a senior who I had never even met before. Throughout the day, we had to ask complete strangers to take pictures of us for a scavenger hunt we were doing. It was honestly so much fun, and even though I joined late I still felt welcome. My sophomore year of yearbook was definitely one I will never forget because it was like being a part of one big happy family."

Next year, Bethany plan to attend Michigan State University to study Pre-Med.

Thanks for all of your hard work; we will miss you!

"I started playing baseball when I was five years old because my mom and dad saw me playing outside our house and thought it would be a good idea to sign me up. The thing that made me fall in love with baseball was that it came naturally to me. I did face some struggles though, such as the mental aspect of the game; I realized baseball is a game of failure. I really don't like failing and letting everyone down. I overcame that with Coach White's help because he got into my head and made me realize I am going to fail in baseball, and in life, and I just have to overcome that. The thing that made me choose Albion as my choice of college was that everyone cared about me when I walked on campus for my visit. The coaches and faculty members all want me to succeed so it was a no-brainer for me."

"This year one of the most popular sayings with the team was 'Yeah Bethany'. It all started when **Mia Janssen ('19)** was telling a story about yearbook and how they always say, 'Yeah Beth' after **Bethany Umloff ('16)** would say something. **Claire [illegible]ooks ([illegible]7)** thought it was so funny that she started saying it in tennis too. After that we all caught on and began using the phrase. Then we began tweeting and hashtagging it, and Bethany became famous among other school's teams. At one of the scrimmages in M[illegible]sville eight courts were playing at the same time and the saying 'YEAH BETHANY' started at court one and traveled along every court until it reached Bethany and I at court eight. Once hearing it, our opponents stopped the match and asked us if she was actually THE Bethany because they didn't think she was a real person."

4. "It was a great experience and it allowed **Drew Fleury ('16)** to apply what we learned in the classroom to the real world."

-Atalie Zimmer ('16)

5. "I was so nervous for my presentation! After presenting, I accidentally spilled coffee all over the table because I was still shaking. Luckily, all the hard work paid off when I won the Financial Portfolio event with **Hope Meyers ('17)**."

-Whitney Westrick ('16)

Business Competition

Katie Freeman and Brittany LaVere ('16)

Did you expect to win both prizes?
"Well, I was entered into two different competitions, out of five. I figured that because I am such a perfectionist and always put up my best effort, I hoped to be highly acclaimed in at least one of the events. Although, I certainly was not anticipating first place in both of my divisions."

What prizes did you win?
"I was one happy camper that day because I was able to walk away with two $100 Visa gift cards in my back pocket. It was a very neat experience.

What events did you participate in?
"I participated in the Financial Portfolio competition with **Whitney Westrick ('16)**, and I went solo for the Trade Show Booth presentation."

Do you plan on going into a business career?
"For quite some time now, I have been considering going to school in hopes of studying financing/ business marketing. However, this study is not my first choice because my ideal field of study would be in science. However, business marketing would be a close second place."

1. "I really enjoyed competing against my friends from Port Huron Northern at the county tournament this year."
-Troy Distelrath ('18)

2. "One time **Jakob Sheridan** ('16) accidentally called the prosecution the prostitution."
-Claire Brooks ('17)

3. "What are some important skills that you have gained from mock trial?"
"Mock trial has taught me how to improvise while being under pressure, improved my public speaking skills, and helped me learn to memorize lengthy speeches."
-Nolan Lyons ('16)

4. "I'm glad I was able to participate in another year of mock trial. We always have a great time together during our preparation for the competitions. I am really going to miss my team and the thrill of experiencing what it is like to be an actual attorney in the courthouse."
-Bettina Lee ('16)

5. "The most memorable teachings of mock trial: not to assume any challenge is impossible to overcome, simply from the way it appears. Also, a little self-confidence and effort is the answer to any problem. I will remember these things always throughout my journey towards medical school next year."
-Karina Saiyad ('16)

6. "**Vishal John ('17)** making a girl cry in the last round of competition was probably the most rewarding moment in mock trial this year."

-Alexandra Karadimas ('17)

End of the Year Prize

left: "Tell me a story about your friendship."
"One night **Maddie Mueller ('16)** and I were very bored and wanted to do something fun, so we created something called a 'slushie run' where we would buy 10-20 slushies and give them out for free to the first people who asked for one. We loved seeing the smiley faces of everyone enjoying a slushie."

"What's the funniest thing that has ever happened while you guys were together?"
"We went to the Fall Out Boy concert and when we were leaving, some guy gave us his mixtape and we ended up listening to it all the way home and loving it."

"How has high school bonded you together?"
"It's bonded us by showing us how important it is to have one solid good friend that you can rely on for anything. You know they will always love you unconditionally when you feel like no one else does."

-Hannah Plotzke ('16)

1. "I've kind of laid low in high school until this year; I've made a lot of new friends and strengthened old relationships. I've really seen what this school has to offer and how awesome it really is. I just wish I would have taken advantage sooner. I wouldn't trade my experience at SCHS for anything."

I was pretty sure that we were going to win because we were really involved and competitive!"

"My advice for incoming freshmen is to really enjoy the simple parts of high school while you
n. Find the things you love to do and do them no matter what anyone else says. Surround
ourself with friends that make you laugh until your stomach hurts and also give you the best
gs when you need them the most. Take school seriously but also not too seriously, have fun
th it. Go to football games, dances, theater productions because it will be over before you
ow it."

-Erika Lindsay ('16)

"Twins who graduate together stay together."

-Ally Kennedy ('16)

"I don't know how but we did it."

-Walker Schweihofer ('16)

"Graduating top in my class is a huge honor and something I am very proud of. I worked hard
l through high school and found that to be very rewarding. If I went back I would tell myself
always work hard because being able to sit in the front row at graduation was so much fun.
lso, I it was nice to be recognized for the hard work that I put in to my high school years.
ome advice for underclassmen would be to learn how to find a balance between work and fun.
ake school work seriously, but also learn that it is important to be a kid and have fun with

"Well it was bittersweet because **Adam George ('16)** has been a leader to me for my first two years of swim and I have always looked up to him. He inspired me to work harder and swim faster, and over the years we have become best friends. It is so sad to see him leave the high school ,and it will be hard without him next year, both in and out of the water."

-Kannon Brooks ('18)

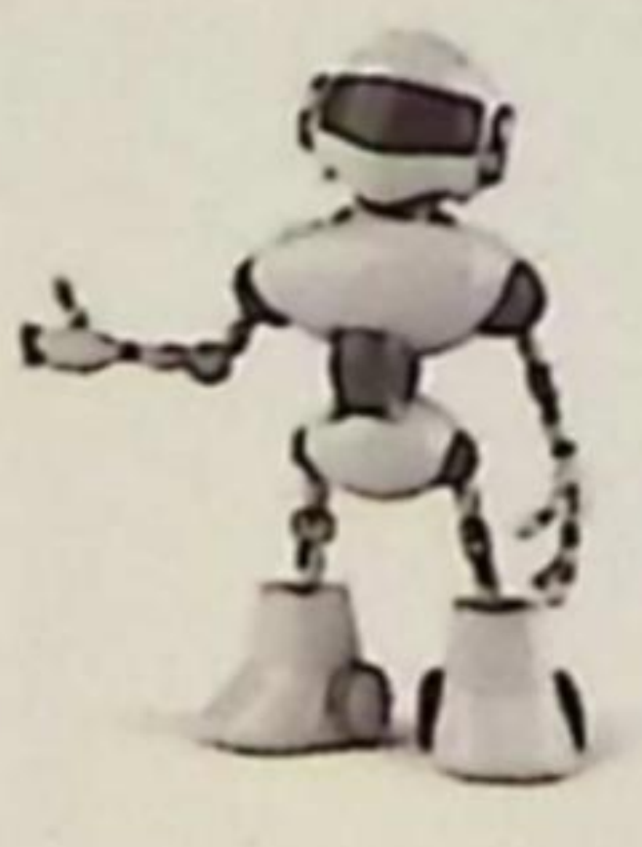
Do you plan on using robotics in your future?



YES 100%

"I chose to do robotics because it sounded and looked fun. When I grow up I want to be an engineer, just like my dad!"

-Megan Schudlich ('19)

"I plan on doing something in engineering in my future. I joinedthis club because I wanted to get involved in the school and all my friends were doing it."

-Josh Jordan ('19)

"At a competition one time, we were randomly allied with a well known, very good team called the ThunderChickens, as well as a rookie team called Moobotics. Before the match, the ThunderChickens started talking trash to the other robotics teams. Once the competition started the ThunderChickens robot flipped over helplessly. We tried to help it get up and wasted two minutes of our time. Once we realized it was not worth our time, my team and Moobotics creamed the opposing alliance and left the ThunderChickens extremely embarrassed. That was my favorite memory because it showed them all the reasons why being a good sport is so important."
